Genus/Species/Cultivar

Notes

<i>Alchornea ilicifolia</i>	Shrub; Native Holly; E Aus; 2 - 4m h; A hardy, dry rainforest, evergreen shrub or small tree featuring glossy, holly-like spiny edged leaves with new growth emerging bronze-red. It bears small greenish-yellow flowers and red fruits that attract birds. Prune for a compact shape; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Alyogyne huegelii</i> 'West Coast Gem'	Shrub; Lilac Hibiscus; 2m h x 1.5m w; Evergreen. This native hibiscus has large, open, deep mauve flowers all year, particularly Spring-Autumn. Hardy to moderate frosts. Prune to keep shapely; Sun; Well-drained; Drought Tolerant
<i>Alyogyne huegelii</i> x <i>A. hakeifolia</i> 'Aussie Purple'	Shrub; 2m h; A fast-growing, evergreen shrub featuring deeply lobed foliage and large, vivid purple hibiscus-like flowers. Ideal for low maintenance gardens. Prune lightly to maintain shape and encourage flowering; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Anigozanthos</i> 'Yellow Gem'	Perennial; Kangaroo Paw; WA; 1 - 2m h x 0.5 - 1m w; Grass-like leaves and multi-branched flower stems with long-lasting yellow flowers. Fast-growing plant, forming clumps; Flowers: Spring; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Arthropodium milleflorum</i>	Perennial; Pale Vanilla Lily; E Aus; 0.3 - 0.6m h; Delicate, clump-forming plant with slender stems bearing starry, pale pink to white vanilla-scented flowers. Summer dormant in dry conditions, it reshoots with rain. Hardy, low maintenance, suited to understorey plantings; Flowers: Spring/Summer; Semi Shade; Well-drained
<i>Atriplex cinerea</i>	Shrub; Coast Saltbush; 1 - 2m h; Evergreen. Attractive silver-grey foliage suitable for a low hedge. Useful in control of soil erosion; Flowers: Spring/Autumn; Sun; Well-drained; Drought Tolerant
<i>Backhousia leptopetala</i>	Tree; Brown Myrtle; Qld, NSW; 12m h; (syn. <i>Choricarpia leptopetala</i>). Evergreen, leathery, aromatic, dark green leaves tinted bronze when new. It produces clusters of small, cream to white flowers with narrow, fringed petals giving a delicate, feathery appearance. Suitable to hedge; Flowers: Winter/Spring; Sun; Moist/Well-drained
<i>Bauera rubioides</i>	Shrub; River Rose; SE Aus; 0.3 - 1.5m h x 1m w; Dense shiny green foliage with pretty pink to white, cup-shaped flowers. Rambling shrub suitable as an understorey plant, low hedge or pot plant; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained
<i>Bauera sessiliflora</i>	Shrub; Grampians Bauera; SE Aus; 1.2m h; Densely branched evergreen shrub, with rose-purple or magenta flowers along the stems. Hardy and disease resistant; Flowers: Spring; Semi Shade; Moist
<i>Beaufortia sparsa</i>	Shrub; Swamp Bottlebrush; SW WA; 1 - 3m h x 0.8 - 1.5m w; An erect evergreen shrub with small, bright-green ovate leaves and displays of spectacular, bottlebrush-like flowers in shades of orange to red. A good screening and cut flower plant; Flowers: Spring/Summer; Sun; Moist/Well-drained
<i>Blechnum neohollandicum</i>	Fern; Rasp Fern; E Aus, NZ; 0.2 - 0.4m h; (syn. <i>Doodia aspera</i>). Forms neat clumps of arching, deeply divided fronds with colourful new growth emerging bright pink to red before maturing rich green. A hardy fern providing year-round texture and colour in shaded gardens, rockeries and containers; Sun/Semi-shade; Moist/Well-drained
<i>Brachyscome formosa</i>	Perennial; Pilliga Daisy; NSW; 0.05 - 0.15m h; Dwarf ground cover with pink to cerise daisy-like flowers most of the year. Very hardy, prefers summer water; Sun/Semi-shade; Well-drained
<i>Brachyscome multifida</i>	Perennial; Cut Leaf Daisy; E Aus; 0.4m h x 0.4m w; Neat plant with soft leaves and lilac-blue small daisy-like flowers with yellow centres. Good in baskets or as groundcover; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant

Genus/Species/Cultivar

Notes

<i>Bulbine bulbosa</i>	Perennial; E Aus; 0.4m h x 0.3m w; A clumping perennial with soft, grass-like leaves and bright yellow, fragrant, star-shaped flowers on tall stems. A great native alternative to daffodils. Attracts bees and insects; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Callistemon rugulosus</i>	Shrub; Scarlet Bottlebrush; 2.5m h x 2m w; Hardy shrub with slender branches, pointed dark green leaves, and dense beautiful red bottlebrush flowers with yellow anthers; Flowers: Spring/Summer; Sun; Well-drained
<i>Callistemon subulatus</i> 'Brogo Overflow'	Shrub; 1 - 1.5m h x 1.5 - 2m w; A tough, compact bottlebrush featuring arching branches, fine narrow foliage, and vibrant crimson flowers. Its dense, weeping habit suits low hedges and attracts birds and pollinators; Flowers: Winter/Spring; Sun; Well-drained
<i>Calothamnus quadrifidus</i>	Shrub; WA; 1.5m h x 2m w; Evergreen, upright habit. Deep green, pine-like leaves. Crimson, occasionally creamy-yellow flowers clustered in semi-circular, one-sided, bottlebrush-like spikes; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Capparis arborea</i>	Tree; NSW; 8m h; Spectacular single, creamy white flowers from branchlet ends lasting for one day only. Fruit ripens December-March and was eaten by Aboriginal people. (locally known as Barror); Sun/Semi-shade; Moist/Well-drained
<i>Chamelaucium uncinatum</i>	Shrub; Geraldton Wax; WA; 3m h x 4m w; Large 5-petalled flowers of wax-like texture from white to deep purple. Linear leaves hooked at the ends; Flowers: Spring; Sun; Well-drained; Drought Tolerant
<i>Chamelaucium uncinatum</i> (large flower form)	Shrub; Geraldton Wax; WA; Small to medium shrub with showy open five petalled pink flowers of waxy texture; Flowers: Spring; Sun; Well-drained; Drought Tolerant
<i>Chamelaucium uncinatum</i> x <i>Verticordia</i> 'Paddy's Pink'	Shrub; 1 - 2m h; Evergreen, medium shrub with fine green needle-like foliage and masses of pink flower clusters. Prune lightly after flowering. Ideal for cut flowers; Flowers: Spring; Sun; Well-drained; Drought Tolerant
<i>Chorilaena quercifolia</i>	Shrub; SW WA; 1 - 3m h x 1 - 2m w; Very floriferous with furry oak-shaped leaves and red ageing to cream, pendulous flowers. A useful understorey or screen plant, moderately frost tolerant. Bird-attracting. Responds well to pruning; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Chorilaena quercifolia</i> (red flower)	Shrub; WA; 1 - 2.5m h; An attractive evergreen shrub with deeply lobed, oak-like leaves, with a felted texture. Conspicuous pendulous clusters of vivid red flowers are held among the foliage. Suitable for screening or as an understorey plant, attracting nectar-feeding birds; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Chrysocephalum apiculatum</i>	Perennial; Everlasting Yellow Buttons; 0.2 - 0.6m h x 0.8m w; A native ground cover featuring silvery-grey, woolly foliage and bright yellow button clusters. Hardy to moderate frost. Excellent for cut and dried flowers; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Chrysocephalum apiculatum</i> 'Yorke Peninsula'	Perennial; 0.15 - 0.3m h; A low-growing evergreen plant with silvery, soft foliage and golden yellow, button-like flowers. Suitable for rockeries, containers and hanging baskets. Tolerant of frost and salt; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Correa baeuerlenii</i>	Shrub; Chef's Cap Correa; E Aus; 1.5m h x 1.5m w; Shiny leaves with cream and green bell flowers March-August. A hardy, evergreen coastal plant, frost tolerant, prefers some shade. Attracts birds; Well-drained; Drought Tolerant
<i>Correa glabra</i> 'Coliban River'	Shrub; 1 - 1.5m h x 1.8m w; A compact shrub with glossy green foliage and a dense habit. It bears pendulous, soft green to yellow tubular flowers attracting nectar-feeding birds, and is drought tolerant and light frost tolerant once established; Flowers: Autumn/Winter; Sun/Semi-shade; Well-drained
<i>Correa glabra</i> (Gold Tips)	Shrub; 0.4 - 0.6m h; Rounded small shrub with bright green leaves that have yellowish tips and pink flowers in Autumn; Sun/Semi-shade; Moist/Well-drained

Plant Source: Australian

Genus/Species/Cultivar

Notes

<i>Correa reflexa</i> (Mallacoota town)	Shrub; Vic; 0.6 - 1m h; Pink flowers with yellow tips; Flowers: Autumn/Winter; Sun/Semi-shade; Well-drained
<i>Correa reflexa</i> (Melbourne)	Shrub; Vic; 0.6 - 1m h; Bell-shaped light green flower with yellow tips; Flowers: Autumn; Sun/Semi-shade; Well-drained
<i>Crowea</i> 'Poorinda Ecstasy'	Shrub; 0.8m h; Compact evergreen cultivar with light green aromatic leaves and pink star-shaped flowers. Performs well in pots. Responds well to trimming. Frost tolerant; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Crowea exalata</i> 'Ryan's Star'	Shrub; 0.6m h x 0.8m w; Compact, evergreen plant with fine, aromatic foliage and masses of star-shaped, deep pink flowers. Attracts pollinators, drought and frost tolerant. Light pruning after flowering maintains shape; Flowers: Autumn/Winter; Sun/Semi-shade; Well-drained
<i>Darwinia citriodora</i> (prostrate)	Shrub; WA; 0.1 - 0.6m h; Low mounding shrub with orange-red lanterns, attractive to honey-eaters and native bees. Silvery green dense aromatic foliage. Good for coastal gardens; Flowers: Spring; Sun; Well-drained
<i>Darwinia taxifolia</i> subsp. <i>macrolaena</i>	Shrub; NSW; 0.2 - 0.5m h x 1m w; Prostrate, small shrub with grey-green leaves; large pink and red flower heads. Ideal for containers and as groundcover for embankments. Tolerates short periods of dryness once established. Prune after flowering; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Dendrobium</i> 'Bardo Rose'	Orchid; Bardo Rose; (One of the earliest registered hybrids <i>D. falcorostrum</i> x <i>D. kingianum</i>) Flowers on stems from leaf axils, are pale pink to mauve and up to 30mm across. Usually perfumed and easy to grow in containers or on tree trunks; Flowers: Spring; Semi Shade; Well-drained
<i>Dendrobium</i> 'Ellen Rau'	Orchid; 0.3m h; Rock orchid. Clusters of soft mauve flowers with spotted strong mauve tips. Reverse of petals strong mauve. Very early flowering in July. Hardy outdoors in Melbourne. Protect from summer sun and hot winds. Ideal on tree ferns or rocks; Flowers: Winter/Spring; Semi Shade; Well-drained; Frost Tender
<i>Dendrobium kingianum</i>	Orchid; Epiphytic. Flowers are pale to deep pink. Does well outside in pots or baskets; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Dendrobium kingianum</i> (hybrid pink form)	Orchid; E Aus; Epiphytic. Dainty vanilla scented pink flowers. 50% shade in summer/full sun in winter. Excellent if fastened to tree branches; Flowers: Spring; Semi Shade; Well-drained; Frost Tender
<i>Dendrobium kingianum</i> (white)	Orchid; Southern Aus; Epiphytic orchid with taller habit and white flowers; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Dendrobium kingianum</i> (Yonda x Ellen) x Aussie Bonanza	Orchid; Upright racemes of white/mauve flowers in late Winter/Spring. Keep dry in Winter; Semi Shade; Well-drained
<i>Dendrobium x delicatum</i>	Orchid; Rock Orchid; E Aus; 0.5m h; Natural hybrid <i>D. speciosum</i> & <i>D. kingianum</i> . 10 to 30 perfumed flowers on erect stems: variable colours. Summer water and 50% shade/Winter full sun, dry. Hardy outdoors. Grows well in Melbourne; Flowers: Spring; Well-drained
<i>Disphyma crassifolium</i> ssp. <i>clavellatum</i>	Succulent; Karkalla; Aus, NZ; 0.2m h; Prostrate. Fleshy leaves with profuse pink daisy-like flowers. Suitable for pots and hanging baskets; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Epacris impressa</i> (pink)	Shrub; SE Aus; 0.3 - 1m h; A slender evergreen shrub with attractive, tubular pink flowers. Attracts honeyeaters, frost tolerant, and serves as Victoria's floral emblem. Excellent cut flower and suitable for containers; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Epacris impressa</i> (red)	Shrub; SE Aus; 0.3 - 1m h; A slender, evergreen shrub with attractive, tubular red flowers. Attracts honeyeaters, is frost-tolerant, and serves as Victoria's floral emblem. Excellent cut flower and suitable for containers; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained

Plant Source: Australian

Genus/Species/Cultivar

Notes

<i>Eremophila alternifolia x maculata</i>	Shrub; 1.2m h x 1.5m w; Narrow green foliage with pink-magenta tubular flowers that have a spotted throat. Frost tolerant. Prune after flowering. Drought tolerant once established; Flowers: Winter/Spring; Sun/Semi-shade; Adaptable
<i>Eremophila biserrata</i>	Shrub; Coolgardie WA; 0.2m h; A prostrate shrub that can spread several metres, making an excellent low-growing groundcover. The small, double-serrated green leaves are complemented by unusual greenish-yellow flowers with prominent protruding purple anthers; Flowers: Spring; Sun; Well-drained
<i>Eremophila calorhabdos</i>	Shrub; S WA; 1 - 2m h; Attractive upright form with vertical branches and pinky-red tubular flowers. Prune after flowering for best growth; Flowers: Winter/Spring; Sun; Well-drained; Drought Tolerant
<i>Eremophila glabra</i>	Shrub; Tar Bush; Arid Australia; 2.5m h; A variable plant with grey-green open foliage. Tubular flowers to 3cm long; yellow, orange or red occurring most of the year; Sun; Well-drained; Drought Tolerant
<i>Eremophila nivea x christophori</i>	Shrub; 2.5m h x 2.5m w; Upright compact shrub with mauve flowers. Tolerant of light frosts; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Gastrolobium praemorsum</i> 'Bronze Butterfly'	Shrub; SW Aus; 0.5m h; Prostrate ground cover, creeper, or small shrub. Oval leaves with truncated tips, dark green above and silky underneath. Red pea flowers from Winter to Summer; Sun/Semi-shade; Well-drained
<i>Goodenia macmillanii</i>	Shrub; Pinnate Goodenia; Vic; 0.3 - 0.6m h; Beautiful, rare, and unusual small erect shrub. Deeply lobed, tooth-edged bright green leaves and striking purple/mauve flowers. Tolerates sandy loam or clay. Moderately frost tolerant and good in rockeries or pots; Flowers: Summer; Sun/Semi-shade; Moist
<i>Goodenia varia</i>	Shrub; Sticky Goodenia; S NSW, Vic, SA; 0.1 - 0.6m h x 1m w; Yellow flowers all year. An excellent soil binder. Suitable for hanging baskets. Drought and frost hardy; Sun; Well-drained; Acidic
<i>Graptophyllum excelsum</i>	Shrub; CE Aus; 1.5 - 3m h x 1.5 - 2m w; Evergreen. Showy and profuse deep red tubular flowers. Upright habit, suitable for narrow sites. Tolerant of lime and light frosts. Attracts birds; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Grevillea chrysophaea</i>	Shrub; Golden Grevillea; Vic; 0.3 - 2.5m h; A spreading or occasionally prostrate shrub. Leaves are elliptical to linear. Flowers range in colour from dull to golden yellow, with a red to orange-red style; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Grevillea crithmifolia</i>	Shrub; SW WA; 0.5 - 1.5m h; A dense, spreading plant with finely divided, soft green foliage and masses of white to pale pink spider-like flowers. Attracts birds and insects; Flowers: Winter/Spring; Sun; Well-drained
<i>Grevillea dimorpha</i>	Shrub; Flame Grevillea; The Grampians; 1 - 2m h x 1.5m w; (syn. <i>Grevillea speciosa</i> ssp. <i>dimorpha</i>). Bright red flowers most of the year and narrow, stiff dark green leaves. Bird attracting and moderately frost hardy; Sun/Semi-shade; Well-drained; Acidic
<i>Grevillea lanigera</i> (prostrate)	Shrub; SE Aus; 0.3m h x 1.5m w; Attractive, low dense groundcover. Narrow, grey-green round tipped leaves that are soft and woolly. Flowers are red to pinkish-cream in spider-like clusters. Frost and drought tolerant; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Grevillea levis</i>	Shrub; W WA; 1 - 2m h; A rounded, dense shrub with narrow, revolute-edged leaves giving a slender appearance. The flowers are white to cream, sometimes flushed pink in bud. It thrives in sandy or gravelly soils. Attracts birds and insects and can be lightly pruned; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Grevillea nudiflora</i> 'Mallee Sensation'	Shrub; 0.3m h x 1 - 2m w; A vigorous, hardy, prostrate plant forming a dense groundcover of fine green foliage that takes on bronzy tones in cooler months. The abundant spider-shaped bright red flowers attract birds and insects. Responds to pruning; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained; Drought Tolerant

Plant Source: Australian

Genus/Species/Cultivar

Notes

<i>Guichenotia ledifolia</i>	Shrub; SW WA; 0.5 - 1.5m h x 0.7m w; A small, attractive rounded shrub. Pink to mauve cup-shaped flowers with dark centres, 1cm across, in sprays of 4 or 5 together. Benefits from a light pruning after flowering. Similar to Thomasia; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Guichenotia macrantha</i>	Shrub; Large-flowered Guichenotia; WA; 0.5 - 1.5m h; Small, erect shrub with densely hairy young shoots. Striking pinkish-purple flowers about 2.5cm wide. A good cut flower; suitable for growing under eucalyptus; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Hardenbergia violacea (pink form)</i>	Climber; E Aus; Hardy, vigorous climber with racemes of pink flowers and leathery leaves; Flowers: Winter/Spring; Sun; Well-drained
<i>Hibbertia dentata</i>	Climber; Trailing Guinea Flower; Qld, NSW, Vic; 1 - 2m h; Slender, climbing twiner; looks best trailing and climbing amongst other shrubs. Dark green toothed leaves, large yellow flowers. Requires ample moisture and tolerates light frosts. Could be used for hanging baskets and useful as prostrate ground cover; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Hibbertia scandens</i>	Climber; Snake Vine; E Aus; Large open yellow flowers most of the year and attractive, evergreen, glossy foliage. Good soil binder. Can be used as groundcover. Tolerates moderate frost. Salt tolerant; Sun; Well-drained; Drought Tolerant
<i>Hibbertia sericea</i>	Shrub; Silky Guinea Flower; SE Aus; 0.3 - 0.7m h; A variable, small, low-growing shrub with slender, spreading stems and soft, silvery-hairy foliage. It produces bright yellow, five-petalled flowers, often in abundance. Attracts pollinators; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Hibbertia truncata</i>	Shrub; Vic; 0.2 - 0.3m h x 0.5 - 1.5m w; Groundcover, can be a climber. Showy, coastal plant with small yellow flowers. Tolerates moderate frosts. Lime tolerant; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Hibiscus heterophyllus (apricot/yellow)</i>	Shrub; NE Aus; 3 - 5m h; Evergreen, fast growing plant with large, single, apricot/yellow flowers with a dark centre. Prune to keep compact. Tolerates light frost; Flowers: Summer; Sun; Well-drained
<i>Homoranthus flavescens</i>	Shrub; E Aus; 0.2 - 0.4m h x 0.6 - 1.5m w; Prostrate growing, beautiful grey-green flat-topped foliage plant. Aromatic foliage and pale-yellow flowers. Bird attracting and frost hardy; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Hoya australis</i>	Climber; Wax Flower; N Aus; 6m h; A hardy, evergreen climber with long twining stems of fleshy glossy leaves, bearing spectacular round clusters of sweetly scented, white, waxy flowers. Can be grown indoors in a well-lit area. Light frost tolerance; Flowers: Summer/Autumn; Semi Shade; Well-drained
<i>Hymenosporum flavum</i>	Tree; Native Frangipani; CE Aus; 10m h x 3 - 5m w; Evergreen. Fast-growing, beautiful slender habit. Highly fragrant yellow flowers perfume the garden at night. May be pruned quite hard to make it shrubbier. Protect from heavy frost when young; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Hypocalymma cordifolium</i>	Shrub; WA; 0.5 - 1.5m h; Compact evergreen shrub with small heart-shaped leaves and masses of pink or white flowers. Responds well to pruning. Makes an attractive low hedge, and is suitable for pots; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Lasiopetalum baueri</i>	Shrub; Slender Velvet Bush; SA; 0.7m h x 1m w; Low shrub with grey-green narrow leaves. Flowers are pink, or sometimes white and hairy inside. Very hardy. Similar to Thomasia; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Lasiopetalum macrophyllum (prostrate)</i>	Shrub; Shrubby Velvet Bush; SE Aus; 0.2 - 0.3m h x 2m w; Attractive, greyish-green velvety foliage with reddish-brown hairs on the new growth. Small brown and cream flowers. Frost hardy; Flowers: Spring; Sun/Semi-shade; Well-drained

Plant Source: Australian

Genus/Species/Cultivar

Notes

<i>Leptospermum polygalifolium</i> 'Bronze'	Shrub; 3 - 5m h; Arching branches with small, green leaves and burgundy tips. Masses of white flowers attract birds and insects; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Leucophyta brownii</i>	Shrub; Cushion Bush; E Aus; 0.5 - 1m h x 0.5 - 1.5m w; (syn. <i>Calocephalus brownii</i>). Dwarf coastal shrub with beautiful silver/white wiry foliage; small insignificant cream flowers. Tolerant of frosts, alkaline soil and extreme drought; Flowers: Spring/Summer; Sun; Well-drained
<i>Lomatia silaifolia</i>	Shrub; Crinkle Bush; NSW, Qld; 1.5m h x 1.5m w; A graceful, erect shrub with profuse creamy-white fragrant flowers, similar to grevilleas. Fire tolerant. Frost hardy; Flowers: Summer; Sun/Semi-shade; Well-drained; Adaptable; Drought Tolerant
<i>Lomatia tinctoria</i>	Shrub; Guitar Plant; Tas; 1.5m h; A small, dense, shrub with narrow, divided, dark green leaves with a distinctive lacy appearance. The plant produces attractive clusters of scented, creamy-white flowers, followed by dark, woody seed pods. Drought tolerant once established. Can be pruned; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Maireana turbinata</i>	Shrub; Satiny Bluebush; C Aus; 0.3 - 0.5m h; A small, hardy shrub with succulent, woolly, greyish-green leaves and branches covered in fine white hairs. Its defining feature is a distinct top-shaped, hairless fruit surrounded by a smooth, golden brown papery wing; Flowers: Winter/Spring; Sun; Well-drained; Drought Tolerant
<i>Melaleuca lateritia</i>	Shrub; Robin Red Breast; WA; 1.5m h x 1m w; Erect shrub with bright orange-red, bottlebrush-like flower spikes up to 5cm. Attracts birds; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Frost Tender
<i>Melaleuca lateritia</i> (dwarf)	Shrub; WA; 0.8m h; Compact, upright shrub with orange-red, bottlebrush-shaped flower spikes; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Metrosideros nervulosa</i>	Tree; Lord Howe Is; 2 - 5m h x 1 - 2m w; Evergreen. Prominent red terminal flowers, sporadically. Slow-growing species suitable for pot culture; likes summer water and is slightly frost tender; Flowers: Spring/Summer; Sun; Well-drained; Frost Tender
<i>Microsorium pustulatum</i>	Fern; Kangaroo fern; E Aus, NZ; 0.4m h; Scrambling, epiphytic fern with both simple and lobed leaves. Grows on tree trunks or rocks in shady, damp places. Good in baskets; Shade; Moist/Well-drained
<i>Myoporum bateae</i>	Shrub; E Aus; 2 - 3m h x 1 - 2m w; This fast-growing plant has pink flowers from October-January. Needs pruning to keep shapely. Hardy to moderate frosts; Semi Shade; Moist/Well-drained
<i>Myoporum turbinatum</i>	Shrub; Salt Myoporum; WA; 2.5 - 4m h; An erect shrub or small tree featuring distinctive warty, resinous stems and narrow, needle-like leaves. It produces white flowers tinged lilac and unique top-shaped fruit. An endangered species where it grows in sandy soils. Is often used in revegetation; Sun; Drought Tolerant
<i>Olearia argophylla</i>	Tree; Musk Daisy Bush; NSW, Vic, Tas; 10m h x 2 - 6m w; Medium to tall shrub or small tree with silvery young growth, then dark green and shiny above and silver below. Solitary or multiple trunks. Daisy-like, large crowded cream to pale yellow heads on terminal branches; Semi Shade; Moist/Well-drained; Acidic
<i>Orthrosanthus multiflorus</i>	Perennial; WA, SA & Vic; 0.5 - 0.8m h; Iris-like plant with flat leaves to 40cm long. Spikes of small, light blue flowers, with dark mid-veins, on stems a little longer than the leaves; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Pandorea jasminoides</i> 'Lady Di'	Climber; 3 - 5m h; An evergreen climber (or ground cover) with glossy green leaves and pure white, trumpet-shaped delicately fragrant flowers. Prune late Winter or early Spring; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained

Plant Source: Australian

Genus/Species/Cultivar

Notes

Pelargonium sp. Striatellum

Perennial; 0.15m h; A ground cover with softly hairy, rounded leaves and delicate pink to pale mauve, finely striped flowers. Butterfly attracting. Drought tolerant once established; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained

Pellaea falcata

Fern; Sickie Fern; E Aus; 0.3 - 0.6m h; An attractive evergreen fern with arching leathery dark green, sickle-shaped leaflets on arching fronds. Perfect as a low maintenance indoor plant or a resilient outdoor groundcover for shaded gardens and rockeries. Tolerates dry periods once established; Semi Shade; Moist/Well-drained

Pimelea ferruginea 'Alba'

Shrub; 0.5 - 1m h x 0.5 - 1m w; Compact evergreen shrub with glossy green foliage and rounded clusters of pure white flowers. A charming feature plant for borders, rockeries and pots. Lightly prune after flowering to maintain a compact shape; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained

Pimelea ligustrina

Shrub; Tall Rice Flower; SE Aus; 0.05 - 3m h; Upright shrub with glossy green, lance-shaped leaves and clusters of fragrant white to pale-pink flowers held in terminal heads. A hardy native occurring in wet forests, gullies and subalpine areas. Attractive as a feature plant or informal screen; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained

Poa labillardierei

Perennial; Common Tussock Grass; E Aus; 0.5 - 1m h x 1m w; Appealing and variable species of tufted grass with channelled leaves, usually green, rarely greyish-green, rough, softly pointed, more or less erect. Rejuvenated by shearing to just above ground in late Winter/early Spring; Sun/Semi-shade; Adaptable; Acidic

Poa labillardieri 'Suggan Buggan'

Perennial; 0.6 - 1m h; Evergreen, tussock grass with a soft, weeping blue-grey form. Prune after flowering. Useful for erosion control; Flowers: Spring/Summer; Sun/Semi-shade; Adaptable; Drought Tolerant

Pomaderris lanigera

Shrub; E Aus; 0.5 - 3m h x 0.5 - 3m w; Medium shrub with woolly yellow flowers. Host larval food plant for *Hypochrysops byzos hecalius* (Yellow Jewel butterfly). Responds well to pruning after flowering; Flowers: Spring; Semi Shade; Well-drained; Drought Tolerant

Prostanthera incisa

Shrub; Mint Bush; NSW & Vic; 1.5m h x 1.5m w; Rounded shrub with violet flowers. Frost hardy; Flowers: Spring; Sun; Well-drained; Neutral

Prostanthera scutellarioides

Shrub; Mint Bush; Qld, NSW; 0.5 - 1.5m h x 1 - 1.5m w; Profuse blue/violet flowers. This attractive plant prefers some shade, makes a good hedge and is hardy to frost and moderately dry periods. Responds well to pruning; Flowers: Spring/Summer

Prostanthera teretifolia

Shrub; Mint Bush; NSW; 2m h x 2m w; Grey-green leaves. Profuse mauve/blue flowers. Prune to shape. Aromatic foliage; Flowers: Spring; Sun/Semi-shade; Well-drained

Prumnopitys ladei

Tree; Mt Spurgeon Black Pine; NE Qld; 10m h; Attractive yew-like foliage, smooth brown bark, tinged red. Purple fruit. Rare. Needs good drainage. Excellent foliage plant for pot culture. Slow growing; Semi Shade

Pullea stutzeri

Tree; Pink Alder; NE Aus; 5m h x 2m w; Clusters of small, pale flower balls. Attractive foliage with brilliant red young growth. Well composted loam. Tolerates moderate frosts; Flowers: Spring; Shade; Well-drained

Spyridium scortechinii

Shrub; E Aus; 0.5 - 1m h; A compact shrub featuring small, dark green leaves with silvery, woolly undersides and terminal flower clusters, which are covered in dense, white velvety hairs resembling fluffy snowballs. Attracts native bees, butterflies and small birds; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained

Syzygium moorei

Tree; Coolamon; N NSW; 20m h x 10m w; A rare, subtropical rainforest tree featuring large, glossy green leaves and striking pink to red pom-pom flowers borne directly on trunks and branches, followed by large pink fruits; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained

Plant Source: Australian

Genus/Species/Cultivar

Notes

<i>Tetratheca thymifolia</i> (white)	Shrub; E Aus; 0.6m h x 0.6m w; A small rounded evergreen shrub with finely divided foliage. Flowers through winter, spring and summer, producing a profusion of nodding, bell-like white flowers that hang from slender stems. Good in rockeries; Semi Shade; Moist/Well-drained
<i>Thelychiton speciosus</i>	Orchid; Rock Orchid; E Aus; (formerly Dendrobium speciosum). Epiphytic or lithophytic. Oblong, leathery leaves to 25cm long; many 8cm, lightly fragrant white-cream to yellow flowers on stems; lip marked red or purple; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Themeda triandra</i> 'True Blue'	Perennial; Kangaroo Grass; 0.4m h x 0.75m w; Evergreen, tussock-like grass with blue-green foliage and reddish-brown flowering spikelets, 1.5m high. Can be pruned back hard periodically; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Thomasia petalocalyx</i>	Shrub; Southern Aus; 0.6m h x 0.6m w; Small rounded woody shrub with oblong leaves and small pinkish flowers in small sprigs. Quite hardy; Flowers: Spring/Summer; Sun; Well-drained
<i>Thomasia quercifolia</i>	Shrub; Oak-leaved Thomasia; WA; 0.5 - 0.8m h x 0.8 - 1.2m w; Much-branched shrub. Dainty sprays of mauve/purple papery flowers. Prune after flowering; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Thryptomene saxicola</i> 'F C Payne'	Shrub; WA; 1.25m h x 1.25m w; Open, evergreen, small shrub with tiny leaves and a slightly weeping habit. Masses of small pale pink flowers over a long period. Aromatic, attracts butterflies and is a good cut flower; Flowers: Winter/Spring; Sun; Well-drained; Drought Tolerant
<i>Verticordia plumosa</i>	Shrub; 1m h x 1m w; Evergreen, bushy shrub with narrow grey-green leaves; rounded clusters of pink or white star-shaped, fringed flowers. Ideal for shrubberies, containers and rockeries. Prune after flowering to maintain compact growth; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Zieria prostrata</i>	Shrub; Carpet Star; E NSW; 0.2m h x 0.5m w; Evergreen, mat-forming shrub with glabrous small leaves. Flowers are pink in bud, opening to white. Endangered species; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained

Plant Source: Exotic

Genus/Species/Cultivar Notes

<i>Abelia floribunda</i>	Shrub; Mexico; 1.8m h x 1.5m w; Evergreen, medium shrub with arching branches bearing glossy green leaves and clusters of striking tubular, cerise/pink flowers. Best in a sheltered position; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Abelia parvifolia</i>	Shrub; C China; 1.5 - 2m h x 2m w; (syn. <i>A. schumannii</i>) Semi-evergreen, spreading shrub with arching stems bearing small, ovate leaves, and fragrant, funnel-shaped pink flowers with red calyces. Long-flowering and well suited to hedging. Prune lightly after flowering to maintain shape; Flowers: Summer/Autumn; Sun; Well-drained
<i>Abelia x grandiflora 'Francis Mason'</i>	Shrub; 1.8m h x 1.5m w; Evergreen shrub with arching, cane-like branches and clusters of fragrant, soft white to mauve flowers. New foliage emerges golden, maturing green with yellow margins. Prune as required to maintain a dense, compact hedge; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Abelia x grandiflora 'Sunrise'</i>	Shrub; 1 - 1.8m h; Compact, mound-forming evergreen shrub with arching branches and glossy green leaves edged in yellow, developing bronze tones in autumn. Clusters of fragrant white tubular flowers are surrounded by long-lasting pink sepals; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained
<i>Abutilon 'Boule de Neige'</i>	Shrub; 2.5m h x 1.5m w; Evergreen. Pendent, bell-shaped pure white flowers with orange stamens. Dark green, maple-like leaves; black stems. Vigorous and fast-growing. Prune early Spring; Flowers: Spring/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Abutilon 'Halo'</i>	Shrub; 1.5m h; Hardy, evergreen, compact shrub. Mid-green, palmate leaves with pendulous bell-shaped, red-veined yellow to light orange blooms. Flowers most of the year; Sun/Semi-shade; Moist/Well-drained
<i>Abutilon 'Red Emperor'</i>	Shrub; Chinese Lantern; 1.5m h; Evergreen shrub with deep red, showy, pendulous flowers. Long flowering. Prune early spring; Flowers: Spring to Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Abutilon 'Sydney Belle'</i>	Shrub; 1.5m h x 1m w; Plentiful, lemon-coloured, bell-shaped flowers appear over the warmer months, complementing mid-green, maple-like foliage; Flowers: Spring/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Abutilon 'Victorian Lady'</i>	Shrub; 1.5 - 2.5m h; Evergreen cultivar with maple-like foliage, and unusual pendent, double pink, ruffled flowers. Can be pruned; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Abutilon hybrid (pale pink)</i>	Shrub; Chinese lantern; 2m h; Evergreen. Pale pink bell-shaped flowers and maple-like leaves. Prune to keep compact; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Abutilon hybrid (pink)</i>	Shrub; Evergreen. Maple-like leaves with pendent, dark veined, pink, bell-shaped flowers. Prune to keep compact; Sun/Semi-shade; Well-drained
<i>Abutilon pictum (orange)</i>	Shrub; 2.5m h; Evergreen with maple-like leaves and orange bell-shaped flowers. Long flowering. Prune to keep compact late Winter; Flowers: Spring to Autumn; Semi Shade; Well-drained
<i>Ackama rosifolia</i>	Shrub; Makamaka; NZ; 2 - 6m h; Open shrub or small tree with an upright form; glossy, light green, pinnate leaves and delicate panicles of small, white flowers. Fast growing; Flowers: Spring/Summer; Semi Shade; Moist; Frost Tender
<i>Adromischus leucophyllus</i>	Succulent; S Africa; 0.1m h; Pure white rounded leaves, about 3cm, covered in a fine powder. The new leaves appear red, then green, then white and have powder pink flowers on 15cm high upright stalks; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Aechmea 'Burgundy'</i>	Bromeliad; 0.8m h; A large, graceful rosette with dark, waxy, burgundy-coloured leaves that glow with colour when grown in good light. The inflorescence is a very attractive purple and white, followed by colourful fruit that turns to a shade of rosy pink; Flowers: Spring; Semi Shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Aechmea 'Foster's Favourite'</i>	Bromeliad; 0.4m h; Slender, reddish leaves and long-lasting, dark burgundy flowers held in red fronds like a string of beads; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Aechmea caudata</i>	Bromeliad; Brazil; 0.9m h; Sheathed leaves, minutely spiny, brown near base. 25cm floral spike with red and yellow flowers, maroon when dry; Shade; Dry
<i>Aechmea distichantha hybrids</i>	Bromeliad; Evergreen. Distinctive pink/mauve to deep mauve flowers; ideal for winter colour in garden or pots. Water into the leaf-formed vases; Flowers: Winter; Semi Shade; Well-drained; Drought Tolerant; Frost Tender
<i>Aechmea fasciata</i>	Bromeliad; Silver Vase Plant; Brazil; 0.3 - 0.9m h; Rosette-forming funnel of broad, grey-green leaves with silver scales. The flower is a pyramidal inflorescence of rose-pink bracts with blue, purple, or red petals; Shade; Dry; Drought Tolerant
<i>Aechmea gamosepala</i>	Bromeliad; C&S America; 0.7m h; Evergreen. Upright rosettes of arching, glossy green leaves. Distinctive, bottlebrush-shaped spikes of pink and blue. Prefers semi-shade to full shade; Flowers: Autumn/Winter; Well-drained; Frost Tender
<i>Aechmea gamosepala (variegated)</i>	Bromeliad; C&S America; 0.7m h; Evergreen. Upright rosettes of arching variegated green leaves with yellow linear stripes. Distinctive bottlebrush-shaped spikes of pink and blue. Prefers semi-shade to full shade; Flowers: Autumn/Winter; Dry; Frost Tender
<i>Aechmea nudicaulis</i>	Bromeliad; C America; 0.4m h; Strappy leaves and a bright red and yellow, open, hanging flower spike. Can grow in trees, on rocks, or on the ground; Flowers: Summer; Semi Shade; Dry
<i>Aechmea pineliana</i>	Bromeliad; C&S America; 0.4m h x 0.4m w; Prominent, dark red, marginal spines on grey-green leaves. Bright red stem and bracts; yellow pine-cone-shaped head. Keep the vase centre full of water; Flowers: Winter/Spring; Semi Shade; Dry; Frost Tender
<i>Aechmea recurvata var. recurvata</i>	Bromeliad; S America; 0.4m h; Epiphyte. The yellow-green, recurved leaves turn a deep red, with pink flowers in the centre of each rosette. Colours best in bright light; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Aechmea weilbachii</i>	Bromeliad; C&S America; 0.7m h x 0.7m w; Soft, very glossy, light green leaves, lilac-purple flowers above brilliant red bracts on a long stem. Reasonably hardy; Flowers: Autumn/Winter; Semi Shade; Dry
<i>Aeonium 'Velour'</i>	Succulent; 0.5m h; Loose rosettes of velvety green leaves, to 25cm in diameter, turn deep maroon-black in cool weather. Yellow star-shaped flowers grow in conical clusters; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Aeonium 'Zwartkop'</i>	Succulent; 0.6m h x 1m w; Evergreen. Branches carry terminal rosettes of fleshy, spatulate blackish-purple leaves. Small yellow flowers in large conical panicles; Flowers: Autumn/Winter; Sun; Dry; Frost Tender
<i>Aeonium canariense var. canariense</i>	Succulent; Canary Is; 0.2m h; Large cup-shaped rosettes up to 60cm in diameter. The light green leaves are soft and fuzzy, but when stressed may show shades of orange and red on older leaves; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Agapetes serpens</i>	Shrub; Epiphytic Heath; Himalayas; 1m h x 1m w; Evergreen. Rose/red pendent flowers with chevron markings hang along arching stems, attracting birds. An attractive plant for a tub or hanging basket. The caudex (trunk-like base) should never be covered by soil; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained
<i>Agave attenuata</i>	Succulent; Mexico; 1.2m h x 1m w; 2m spike of cream flowers. Blooms once after many years. Handsome, sculptural plant with large rosettes of broad, smooth, pliant leaves with no terminal spine; Sun; Well-drained; Frost Tender

Genus/Species/Cultivar

Notes

<i>Agave filifera</i>	Succulent; Thread Agave; Mexico; 0.5m h x 0.5m w; Perennial succulent with narrow green leaves, spined at the tip. White leaf margins gradually break away, leaving long white fibres. Yellow-green flowers on a 2.5m tall stem; Flowers: Summer; Sun; Well-drained
<i>Agave franzosinii</i> 'Grey Ghost'	Succulent; 2.5m h x 3m w; (syn. <i>A. beaulueriana</i>) Large succulent, bluish-grey, undulating, and bending leaves in a single rosette. Leaves have large teeth on the margins. Very infrequent yellow flowers. Dies after flowering but easily propagated from rhizomes; Sun; Well-drained
<i>Agave geminiflora</i>	Succulent; Twin-Flowered Agave; Mexico; Stemless rosettes to 1 metre comprising of 100 to 200 dark green linear narrow leaves to 50cm long. Leaf margins filiferous. Inflorescence is a slender stalk to 3 metres high supporting yellow flowers which occur in pairs; Sun; Well-drained
<i>Agave nickelsiae</i>	Succulent; Mexico; 0.6m h; Slow-growing succulent with stiff, dark green leaves strikingly marked in white, with black spikes at tips. After 15-20 yrs, the flower panicle atop very tall stems has green/white blooms of 3 petals, tinged purple with purple stripes down the centre; Sun/Semi-shade; Well-drained
<i>Agave parryi</i>	Succulent; Arizona, Mexico; 0.3 - 0.6m h; Grey-blue leaves in a dense, compact basal rosette. Erect panicles of creamy yellow flowers, pink-tinged in bud, are held on a spike 5m high; Flowers: Summer; Sun; Dry; Drought Tolerant
<i>Agave schottii</i>	Succulent; Schott's Century; Mexico; 0.45m h x 0.6m w; Grows on rocky slopes in individual green to yellow-green rosettes, with very spiny leaves and slender curling hairs. Tall flower spike with pleasantly scented, yellow-green flowers; Flowers: Spring; Sun/Semi-shade; Dry; Drought Tolerant
<i>Agave titanota</i>	Succulent; Mexico; 0.3 - 0.6m h; A medium-sized agave that is very robust looking and forms a mostly solitary rosette with a wide-open crown of a few leaves up to 75cm in diameter. Leaf margins are lined with teeth. Flowers on a tall stalk once in its lifetime; Sun/Semi-shade; Well-drained
<i>Ajanía pacífica</i>	Shrub; C&E Asia; 0.4m h x 0.45m w; (syn. <i>Chrysanthemum pacificum</i>). Mound forming excellent ground cover. Very attractive lobed, grey-green leaves, silver-edged. Clusters of yellow button flowers. Prune hard in late winter; Flowers: Autumn; Sun/Semi-shade; Well-drained
<i>Aloe 'Boris'</i>	Succulent; 0.08m h x 0.08m w; Small growing plant with bright green spotted lanceolate leaves, edged with soft teeth. Orange-red bulbous bell flowers grow at the tips of delicate curved stems. Plant forms offsets from the base and flushes bronze in extreme hot or cold; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Aloe 'Bright Star'</i>	Succulent; 0.1m h x 0.1m w; A compact plant forming rosettes of grey-green, white spotted leaves with toothed edges of deep pink to red. In Summer and Autumn, it produces spikes of tubular, red flowers; Sun; Well-drained
<i>Aloe 'Faine'</i>	Succulent; Rosette form, leaves pale green, straight-sided tapering to a point, thin curved teeth along leaf margins, upper and lower leaf surfaces speckled with whitish green dots. Overall appearance similar to <i>A. perfoliata</i> or <i>A. distans</i> ; Sun; Dry
<i>Aloe 'Sparkler'</i>	Succulent; 0.4m h; Attractive, candle-like flower spikes with greenish flower buds turning white as they open to reveal bright yellow filaments with bright orange anthers. Suitable for containers; Flowers: Autumn/Winter; Sun; Well-drained
<i>Aloe 'Tyson'</i>	Succulent; 0.1 - 0.2m h; A small slow growing hybrid. Pale green leaves with smooth toothless margins. The flowers are peach coloured with cream and green-striped tips; Flowers: Summer; Semi Shade; Well-drained
<i>Aloe 'Walmsley's Blue'</i>	Succulent; 0.3m h; Small rosettes of narrow blue-green leaves with soft teeth that turn bronze-green in full sun. Orange tubular flowers grow on tall stems. A popular hybrid form; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Aloe aristata</i>	Succulent; Torch Plant; S Africa; 0.15m h; Red flowers to 50cm. Plants are stemless rosettes with up to 100 dark green leaves with many fine, soft, close-spaced white hairs. Leaf surfaces are warty. Leaf tips terminate in a fine white single filament; Flowers: Summer; Sun; Well-drained
<i>Aloe bakeri</i>	Succulent; Madagascar; 0.1 - 0.2m h; Rosettes of fleshy, green to reddish-green leaves heavily mottled with white. The tubular flowers are red or orange, becoming yellow towards the mouth and green at the tips; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Aloe brevifolia</i>	Succulent; S Africa; Small pale green rosettes to 8cm dia. Leaves have long white, soft marginal teeth; Flowers: Spring/Summer; Sun; Well-drained
<i>Aloe ciliaris</i> (red flower form)	Succulent; 5m h; (syn. <i>Aloiampelos ciliaris</i>) Red flower. Distinctive cane-type stems. Long, narrow, thin, recurved leaves; Flowers: Spring/Summer; Sun; Moist/Well-drained
<i>Aloe divaricata</i>	Succulent; Madagascar; 3m h; Leaves in a rosette at the apex, dense below, dull grey-green colour, tinged in red. Marginal sharp teeth; Flowers: Winter; Sun/Semi-shade; Well-drained
<i>Aloe ferox</i>	Succulent; Bitter Aloe; S Africa; 3m h; Leaves are dull blue-green with red spines. Flowers are yellow-orange to red on candelabra-shaped stalks. Bird attracting; Flowers: Autumn/Winter; Semi Shade; Dry; Adaptable
<i>Aloe humilis</i>	Succulent; S Africa; Compact, dense rosettes of blue-green, triangular leaves covered in soft white tubercles giving a shiny appearance without being sharp. It forms low mats through offsets, suiting rockeries and pots. Tubular, coral flowers appear on slender stems; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Aloe jucunda</i> 'Bullock'	Succulent; Clustering stemless rosettes. Foliage is shiny and dark green with white spots. The flowers are pink; Sun; Well-drained
<i>Aloe juvenna</i>	Succulent; Tiger Tooth Aloe; Kenya; 0.4m h x 0.6m w; Bright green leaves spotted cream on upper and lower surfaces. Slender soft cream teeth along leaf margins. Bright coral pink flowers becoming yellow. Grows in tall columnar form; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Adaptable
<i>Aloe mitriformis</i>	Succulent; Africa; (syn. <i>A. perfoliata</i>) Clustering rosettes on sprawling stems, heads 15-18cm across and up to 30cm tall. White spotted green or glaucous leaves 20cm long, lined with yellow teeth. Red flowers on a 60cm branched inflorescence; Flowers: Spring/Summer; Sun; Well-drained; Adaptable
<i>Aloe vera</i>	Succulent; Barbados Aloe; 0.6m h; Long tapering near vertical mid-green leaves with soft white marginal teeth. Small, orange/yellow flowers. Requires good light; Flowers: Summer; Semi Shade; Well-drained
<i>Aloe vera</i> 'Quicksilver'	Succulent; 0.3m h; Triangular cone-shaped fleshy leaves, 5-10cm in length, with silver/white spots. Leaves grow in a rosette shape, with an orange flower on the stem. Simple to grow and good indoors; Flowers: Summer; Shade; Well-drained; Drought Tolerant
<i>Alsobia dianthiflora</i>	Climber; Lace Flower Vine; Costa Rica, Mexico; Indoor plant with creeping stoloniferous, thinly fleshy, dark green foliage. Solitary flowers are frilly, pearly white; Semi Shade; Moist/Well-drained
<i>Arctostaphylos hookeri</i> 'Monterey Carpet'	Shrub; California; 0.3m h x 1.3m w; Dense low growing evergreen having twisted maroon stems, small glossy green leaves and white to pinkish urn shaped flowers in clusters and red berries; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained; Acidic; Drought Tolerant
<i>Artemisia schmidtiana</i> 'Nana'	Perennial; 0.1 - 0.2m h; Grown for its silvery, feathery foliage and compact form. Insignificant yellow flowers. Tolerates sandy, poor soil. To maintain the best form, cut back at the end of the growing season or before growth restarts in Spring; Sun; Well-drained; Drought Tolerant

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Arthropodium cirratum</i> 'Te Puna'	Perennial; Dwarf Rengarenga Lily; NZ; 0.3m h x 0.3m w; Compact, lime-green, sword shaped leaves with white lily-like flowers on long panicles above the foliage. Best in a protected position; Flowers: Spring/Summer; Semi Shade; Well-drained; Frost Tender
<i>Aspidistra elatior</i>	Perennial; Cast Iron Plant; China, Japan; 0.6m h x 0.5m w; Upright glossy leaves. Excellent indoor foliage plant. Withstands very poor conditions; Shade; Dry; Drought Tolerant
<i>Aspidistra elatior</i> 'Variegata'	Perennial; Cast Iron Plant; Himalayas to Japan; 0.6m h; Excellent indoor foliage plant. Withstands very poor conditions. Glossy dark green lanceolate leaves with cream variegations, growing from the base to form a clump; Shade; Dry; Drought Tolerant
<i>Aspidistra lurida</i>	Perennial; Himalayas, China, Japan; 0.6m h; Stiff lance-shaped leaves 15-20cm long, with 2 or 3 leaves per node. Dark-green leaves develop yellow markings when mature. Solitary bell-shaped deep purple-red flowers along the rhizomes in early Summer; Shade; Dry
<i>Astroloba rubriflora</i>	Succulent; S Africa; (formerly Poellnitzia r.) Large robust plant with multiple sprawling 45cm stems, densely covered in sharp, waxy, blue-green leaves. Red flowers with green tips grow erectly from stems; Flowers: Summer; Shade; Well-drained
<i>Aucuba japonica</i> 'Rozannie'	Shrub; 0.5 - 1m h; Evergreen. Lance-shaped glossy green leaves with brilliant red berries. A compact variety suitable for very deep shade and pots. Drought tolerant once established; Semi Shade; Well-drained
<i>Aucuba japonica</i> 'Variegata'	Shrub; Gold Dust Plant; 2m h; Evergreen. Gold-speckled, dark green leaves. Adaptable to all but waterlogged soils. Mostly grown as a foliage plant. Good container plant. Trim in early Spring; Semi Shade
<i>Aulax cancellata</i>	Shrub; S Africa; 2m h; An evergreen, upright shrub with firm, textured green leaves. It is dioecious, with male and female flowers on separate plants. Small flowers are surrounded by showy reddish bracts, and female plants develop woody seed cones; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Aylosteria muscula</i>	Succulent; 0.2m h x 0.4m w; Features small globose stems entirely hidden under a dense coat of soft, velvety, white spines. It produces large brilliant flowers from the base of its stems. Protect from very hot sun and keep almost dry in Winter; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Aylosteria pulvinosa</i>	Succulent; Bolivia; 0.05 - 0.1m h x 0.1 - 0.15m w; A small, clumping cactus with rounded green stems covered in fine, soft spines. It produces numerous bright orange-yellow flowers around the base of the stems. An easy-care, compact ideal pots, rockeries and succulent collections.; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Begonia</i> 'Black Velvet'	Begonias; 0.45m h; Rhizomatous. Compact plant with black, velvety leaves and reddish-pink flowers; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained; Frost Tender
<i>Begonia</i> 'Bob O Link'	Begonias; (B. radicans x B. 'Richard the First') Trailing plant, with light rose-red flowers throughout the year; Semi Shade; Moist/Well-drained
<i>Begonia</i> 'Cartia Lane'	Begonias; Rhizomatous. Attractive burgundy/silver-tinged ovate leaves on multiple hairy red stems; Sun/Semi-shade; Moist/Well-drained; Frost Tender
<i>Begonia</i> 'Eureka Bonanza'	Begonias; Compact plant with medium sized, large-toothed blackish-green and silver leaves; Semi Shade; Moist/Well-drained
<i>Begonia</i> 'Green Supreme'	Begonias; Bright green leaves with a brown edge; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Begonia</i> 'Pink Jade'	Begonias; 0.5 - 1m h; Cane-type with large bronze-green leaves and many deep pink flowers in Spring/Summer; Semi Shade; Moist/Well-drained
<i>Begonia</i> 'River Nile'	Begonias; Rhizomatous. Distinctive, ruffled, lime-green leaves with dark red-brown edges and white flowers; Flowers: Summer/Autumn; Semi Shade

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Begonia 'White Showers'</i>	Begonias; Cane-like stems form a small shrub. Small white flowers. Does well in a warm position; Flowers: Spring/Summer; Semi Shade; Well-drained
<i>Begonia 'Yorke's Black Velvet'</i>	Begonias; 0.15 - 0.2m h; A compact rhizomatous begonia with velvety, near-black foliage and burgundy undersides. It forms a dense mound in bright filtered light, producing delicate white to pale pink flowers; Semi Shade; Well-drained
<i>Begonia acutifolia</i>	Begonias; Jamaica; 0.4 - 1m h; Holly leaf begonia. Stemming upright and zig-zag between nodes. Flowers are white and flushed with pink. Good in baskets and containers; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained; Frost Tender
<i>Begonia albopicta</i>	Begonias; Brazil; 0.5m h; Cane-stemmed with wavy-edged, glossy green, silver spotted leaves. Hanging clusters of greenish-white flowers are produced in Summer; Semi Shade; Well-drained
<i>Begonia conchifolia</i>	Begonias; C America; Rhizomatous. Succulent, glossy green, shell-like leaves. Pale pink fragrant flowers on stems 25cm high; Flowers: Spring; Shade; Moist/Well-drained
<i>Begonia cubensis</i>	Begonias; Holly-leaf begonia; Cuba; 1m h; Bushy growth with many 50cm or longer stems and small, crinkled, toothed, glossy green leaves. Flowers pinkish-white in Winter; Sun; Moist/Well-drained; Frost Tender
<i>Begonia fuchsioides</i>	Begonias; S America; 0.6 - 1m h; An evergreen, shrubby plant with maroon stems and small, shiny, medium to dark green leaves. Good in containers and indoors. Clusters of pretty, fuchsia-like flowers most of the year; Semi Shade; Moist/Well-drained
<i>Begonia hybrid (coral-pink)</i>	Begonias; 2m h x 1m w; Cane-stemmed type with coral-pink flower panicles; Flowers: Autumn; Semi Shade; Well-drained
<i>Begonia listada</i>	Begonias; Brazil; 0.5m h; A striking species known for its velvety, deep green leaves with a prominent, light green stripe down the centre and reddish undersides. Pink-tinted white flowers; Semi Shade
<i>Begonia rufa</i>	Begonias; SE Brazil; (syn. <i>B. lobata</i>) Large mid-green leaves, red stems and clusters of white flowers; Semi Shade; Moist/Well-drained
<i>Begonia scharffii</i>	Begonias; Brazil; 0.9 - 1.2m h; Large, bronze-green, hairy leaves with red veins above and red undersides. Clusters of pendent, white to pale pink, hairy flowers. Flowers most of the year; Semi Shade; Moist/Well-drained; Frost Tender
<i>Beschorneria yuccoides</i>	Succulent; Mexico; 1.5m h x 1m w; Perennial succulent with compact rosettes of lance-shaped fleshy grey-green leaves. Yellow tinted bright green flowers with vivid red bracts; Flowers: Summer; Sun; Well-drained
<i>Bifrenaria harrisoniae</i>	Orchid; Brazil; 0.3m h; Lovely fragrant white blooms with a hairy purple lip. Singular oblong upright leaves. Likes high humidity. Keep dry during Winter; Flowers: Spring; Semi Shade; Well-drained
<i>Brillantaisia cicatricosa</i>	Perennial; Tropical Africa; 1 - 3m h; (syn. <i>B. subulugurica</i>). Soft-wooded, large shrub with aromatic, purple-tinged, green, toothed leaves. The blue-purple, salvia-like flowers appear on erect spikes in the warmer months; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Brunfelsia undulata</i>	Shrub; W Indies; 1.5 - 2m h; A lovely, compact, evergreen shrub with narrow, deep green leaves and perfumed trumpet-shaped, creamy white flowers. Excellent for a container. Will tolerate a light frost; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Brunsvigia josephinae</i>	Bulb; Candelabra Lily; S Africa; Deciduous, large bulb with attractive, strappy, bluish-green leaves up to 60cm long. Flowers appear after summer dormancy on thick, tall stalks bearing a full head up to 90cm across of coral-red flowers; Flowers: Summer/Autumn; Sun
<i>Buddleja cordata</i>	Shrub; Mexico, Guatemala; 12m h; Large shrub or small tree with heart-shaped leaves and white or yellow scented flowers. Protected warm position. Found in volcanic soils at 3000m; Flowers: Autumn; Sun/Semi-shade; Well-drained

Genus/Species/Cultivar

Notes

<i>Burchellia bubalina</i>	Shrub; Wild Pomegranate; S Africa; 2 - 5m h x 1 - 3m w; (syn. <i>B. capensis</i>). Evergreen. Deep scarlet to orange flowers, red-brown berries. Glossy leaves; Flowers: Spring/Summer; Sun; Frost Tender
<i>Buxus microphylla</i>	Shrub; Japan, Taiwan; A slow-growing, evergreen shrub with small, glossy evergreen leaves and a dense, compact form. Ideal for hedges, borders, and topiary. Hardy, long-lived, and low maintenance, it responds well to regular clipping and shaping. 30-80cm high if trimmed; Sun/Semi-shade; Well-drained
<i>Buxus sempervirens 'Variegata'</i>	Shrub; 4m h; Evergreen, rounded bushy plant bearing glossy, green leaves with cream to yellow margins and insignificant, yellow-green flowers. Excellent for pots, topiary, and hedging; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Bystropogon canariensis</i>	Shrub; Canary Island Smoke Bush; 1.8m h x 1.5m w; Evergreen. Aromatic, small grey/green foliage. Long flowering foams of grey-tinted, hairy flowers. Tough; Flowers: Summer/Autumn; Sun; Well-drained; Drought Tolerant
<i>Calamagrostis x acutiflora 'Karl Foerster'</i>	Perennial; Feather Reed Grass; N Hemisphere; 1.5m h x 1m w; Ornamental grass. Upright clumps of dark green leaves change to gold in Autumn. Rust red flower; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Calamagrostis x acutiflora 'Overdam'</i>	Perennial; Variegated Reed Grass; N Hemisphere; 0.5 - 1.5m h x 1m w; Compact clumps of variegated, white and green reed grass, pinkish flowers; Flowers: Summer/Autumn; Sun/Semi-shade; Moist
<i>Calandrinia spectabilis</i>	Succulent; C. Chile; 0.4m h x 0.6m w; A low-maintenance ground cover with fleshy grey-green foliage and magenta-pink flowers that bloom profusely in the warmer months; Flowers: Spring to Autumn; Sun; Well-drained; Drought Tolerant
<i>Callicarpa bodinieri</i>	Shrub; Bodinier Beautyberry; China; 2 - 3m h; Deciduous. Dark green leaves, tiny pink flowers, followed by ornamental violet-coloured fruits during Autumn; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Camellia 'Fragrant Pink'</i>	Camellia; (USA-1964) Deep pink fragrant flowers of a miniature peony form. The shrub has a spreading growth; Flowers: Winter/Spring; Sun/Semi-shade; Moist/Well-drained
<i>Camellia 'Keck's Special'</i>	Camellia; Medium sized shrub with informal double flowers, having pink centres and white outer petals with pink stripes; Flowers: Autumn/Winter; Semi Shade; Moist/Well-drained
<i>Camellia grijsii</i>	Camellia; China; 1 - 3m h x 1 - 2m w; Species, C.F.M. de Grijis. Fragrant single white, small flowers with 5-6 petals. Bushy habit. Flowers in late winter; Sun/Semi-shade; Moist/Well-drained; Acidic
<i>Camellia japonica 'Cup of Beauty'</i>	Camellia; (China to England 1857) Large formal double with incurved petals. White lightly striped rose-pink; Sun/Semi-shade; Moist/Well-drained; Acidic
<i>Camellia japonica 'Fire Falls'</i>	Camellia; 2 - 4m h; (USA-1953). Medium, informal double, vivid-red flowers. Vigorous, open, upright growth; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Camellia japonica 'Lovelight'</i>	Camellia; 2.5 - 4m h; (USA-1962). Large, pure-white, semi-double flowers with broad, creped petals around prominent yellow stamens. Vigorous, upright growth. Mid-season blooming; Flowers: Winter; Semi Shade; Moist/Well-drained; Acidic
<i>Camellia japonica 'Madame de Cannart d'Hamale'</i>	Camellia; (Belgium-1870) A delicate pink with a white border and a band of light, salmon pink in the centre of rounded petals. Sport of C. J. 'Cup of Beauty'; Semi Shade; Moist/Well-drained
<i>Camellia sasanqua 'Otome-sazanka'</i>	Camellia; Maiden Pink; 1 - 1.5m h; Originated in Japan in 1956, unknown parentage. Flowers are double, having 30 incurving petals in a delicate pink; Flowers: Winter; Semi Shade; Well-drained; Acidic
<i>Camellia vietnamensis</i>	Camellia; Vietnam; 5m h; Species. White single flowers up to 11cm and large leaves over 10cm long; grows to a small tree size; Sun/Semi-shade; Moist/Well-drained; Acidic

Genus/Species/Cultivar

Notes

<i>Campanula latiloba</i> 'Hidcote Amethyst'	Perennial; Great Bell Flower; 0.5 - 1m h; Deciduous, clump-forming perennial with pointed leaves arising from a rich green rosette of broader leaves. Pale blue/purple cup or star-shaped flowers on erect stems; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Campanula persicifolia</i>	Perennial; Narrow Leaved Bellflower; Europe; 1m h x 0.7m w; Tall form. Spikes of bluish-violet, bell-shaped flowers. Humus rich soils. Protected sunny position. Drought tender. Divides easily; Flowers: Spring/Summer
<i>Campanula raddeana</i>	Perennial; Bellflower; Caucasus; 0.2m h; Creeping ground cover with serrated heart-shaped leaves and violet-blue, bell-shaped flowers. Suitable for containers and hanging baskets; Flowers: Summer; Sun/Semi-shade; Moist
<i>Cantua buxifolia</i>	Shrub; Sacred Flower of the Incas; Peru, Bolivia; 2m h x 1.5m w; Evergreen. Pendent brilliant cerise coloured trumpet flowers. Grey-green foliage. Protected position. Tolerant of light frosts; Flowers: Spring; Sun; Well-drained
<i>Cantua buxifolia</i> 'Bicolor'	Shrub; S America; 2m h x 1.5m w; Evergreen plant with pendulous clusters of 7cm yellow tubular flowers with pink and white flared tips. Prune lightly after flowering to keep compact. May occasionally revert to a reddish-pink flower. Tolerant of light frosts; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Cavendishia bracteata</i>	Shrub; Andes Mtns; 1m h x 1m w; Evergreen. Bright red tubular flowers tinged creamy green at tips in clusters. New growth is coral red; Flowers: Spring/Summer; Semi Shade; Acidic; Frost Tender
<i>Ceanothus pinetorum</i>	Shrub; Coville Ceanothus; California; 1m h x 0.8m w; Evergreen. Ground cover shrub. Flowers are blue to whitish pale blue; Flowers: Spring/Summer; Sun; Well-drained
<i>Ceanothus thyrsiflorus</i> (blue)	Shrub; Blue Blossom; California; 1 - 5m h; Evergreen. Clusters of pale to deep blue flowers. Light well drained soil. Protected position; Flowers: Spring/Summer; Sun/Semi-shade
<i>Centradenia grandifolia</i> (red form)	Perennial; C America; 0.5m h; Mauve open flowers, bronze leaves. Excellent for containers and hanging baskets; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained; Frost Tender
<i>Cephalotaxus harringtonia</i> 'Fastigiata'	Tree; Japanese Plum Yew; 2 - 4m h x 1 - 2m w; Evergreen, upright, columnar conifer with attractive, needle-like foliage. Slow growing. Suitable for pots; Semi Shade; Well-drained; Drought Tolerant
<i>Ceratostigma griffithii</i>	Shrub; Himalayas; 1m h; A compact, evergreen shrub with reddish stems and abundant, deep, violet-blue flowers. Hardy and free-flowering, it benefits from pruning after winter to maintain shape. Ideal for borders or mixed plantings; Flowers: Summer/Autumn; Sun
<i>Chamaecereus silvestrii</i>	Succulent; Peanut Cactus; NW Argentina; 0.1m h; Evergreen. Stem mid-green cylindrical column clustering with 8-10 narrow ribs. Short white spines cluster in patterned groups of 10-15. Flowers deep scarlet to 2.5cm; Flowers: Summer; Sun; Well-drained; Adaptable; Drought Tolerant
<i>Choisya ternata</i>	Shrub; Mexican Orange Blossom; Mexico; 2m h x 2m w; Compact round habit with dark, glossy green leaves. Fragrant flowers are small, white, and star-shaped. Great as a hedge or specimen plant. May repeat flower; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Adaptable; Drought Tolerant
<i>Choisya x dewitteana</i> 'Aztec Pearl'	Shrub; Mexican Orange Blossom; 1 - 2m h x 2m w; (Hybrid of <i>C. ternata</i> x <i>arizonica</i>). Highly scented, fast-growing, hardy shrub with slender, glossy, green leaves and star-shaped white to pink tinged flowers with a central ring of yellow stamens; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Cissus rhombifolia</i>	Climber; Grape Ivy; Venezuela; Evergreen. Glossy green vine easily grown indoors; Semi Shade; Well-drained; Frost Tender
<i>Cistus x laxus</i>	Shrub; 0.5 - 1.2m h x 1.5m w; Evergreen rockrose with a rounded habit, bright green leaves, and showy orange-centred, papery white, single flowers. Vigorous; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant

Genus/Species/Cultivar

Notes

<i>Clinanthus variegatus</i>	Bulb; W S America; 0.5m h; (syn. <i>Stenomesson variegatum</i>). Pendulous yellow bells banded green, with protruding stamens. Strap-like leaves appear after flowers. Warm position. Prefers drier soil during winter to promote flowering; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Clivia miniata</i> (yellow)	Bulb; S Africa; 0.4m h; Creamy-yellow flowers. Excellent strap-like foliage. Flowers in shade. Tolerates tree roots and dry conditions once established; Flowers: Winter; Well-drained; Frost Tender
<i>Coelogyne cristata</i>	Orchid; E Himalayas; 0.3m h x 0.3m w; Epiphytic. Sprays of fragrant white flowers with yellow marked tongues. Protected shaded position. Drought tender. Good for hanging baskets; Flowers: Spring; Moist/Well-drained; Frost Tender
<i>Coelogyne flaccida</i>	Orchid; E Himalayas; 0.25m h; Epiphytic. Racemes of fragrant beige, star-shaped flowers with yellow and crimson marked tongues. Protected position. Drought and frost tender; Flowers: Spring; Semi Shade; Well-drained
<i>Coreopsis grandiflora</i> 'Early Sunrise'	Perennial; N America; 0.45m h x 0.5m w; Clump-forming plant with semi-double flowers in light gold. Good border plant and for cutting; Flowers: Spring/Summer; Sun; Moist/Well-drained
<i>Cornus sericea</i> 'Flaviramea'	Shrub; Yellow Stemmed Dogwood; 2.5m h x 4m w; Deciduous. Clusters of small white flowers. Red or orange autumn foliage. Young stems turn yellow in winter; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Cotinus coggygia</i> 'Velvet Cloak'	Shrub; Smoke Bush; 2 - 4m h x 2 - 4m w; Lovely foliage plant with multi-stemmed form. Deep purple leaves in the summer, turning orangey-red in the autumn. Insignificant pink flowers in terminal panicles develop a hazy look in the Summer; Sun/Semi-shade; Moist/Well-drained
<i>Cotyledon orbiculata</i> 'Silver Waves Variegata'	Succulent; 0.4m h; Unusual cotyledon with rounded folded leaves splashed dark green and creamy silver, with wavy edges. Slower growing than its unvariegated form, but stunning. Salmon-coloured bell flowers; Winter/Spring. Will grow offsets from its base and slowly spread; Sun/Semi-shade; Well-drained
<i>Cotyledon papillaris</i>	Succulent; S Africa/Middle East; 0.8m h; Multi-branched plant with dense clusters of yellow-green rounded thick leaves edged in maroon. Tall dark red to orange tubular lobed flowers on stems; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Cotyledon woodii</i>	Succulent; S Africa; 1 - 2m h; Very attractive woody stemmed, shrubby plant with hairy, oval grey-green leaves. Flowers of 2-3 drooping orange-pink bells, after winter rain; Flowers: Winter; Sun/Semi-shade; Well-drained
<i>Crassula 'Isabella'</i>	Succulent; 0.15m h; Small heart-shaped leaves in green/maroon. Central portion is mid-green, margin is cream or pink, and the flowers are very small and white. Likely to be <i>C. exilis</i> x; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Crassula 'Shandy'</i>	Succulent; 0.3m h; Upright form with branches of fleshy, elongated leaves. Foliage is a soft grey-green colour with pink to red margins. The clusters of flowers are cream to pale pink; Sun/Semi-shade; Well-drained
<i>Crassula lactea</i>	Succulent; S Africa; 0.1 - 0.3m h; Small trailing smooth leafed shrub with branches from the base. The name refers to milky white, sweetly scented, star-shaped flowers. Distinctive white dots along the leaf margins; Flowers: Winter; Sun/Semi-shade; Well-drained
<i>Crassula orbicularis</i>	Succulent; S Africa; Clumping, flat rosettes of fleshy green leaves with slightly tinged pink margins if in bright light. Sometimes produces runners. The tubular flowers are white to pale yellow, often tinged pink or reddish-brown; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Crassula ovata</i> 'Blue Bird'	Succulent; 0.6 - 0.9m h; Leaves flat blue/green with whitish bloom, widening to round tip. Leaf margins red/brown. White star-shaped flowers; Sun; Well-drained; Adaptable; Drought Tolerant

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Crassula ovata</i> 'Gollum'	Succulent; 0.5m h; Compact growth; unusual indentation on each leaf tip. Will survive on little water for extended periods. Protected position; Sun; Well-drained; Frost Tender
<i>Crassula ovata</i> 'Hummel's Sunset'	Succulent; Golden Jade Tree; 1m h x 1m w; Shrubby succulent with fleshy mid-green leaves edged with yellow and tinged red. Small, star-shaped flowers in terminal clusters; Flowers: Winter/Spring; Sun; Well-drained
<i>Crassula ovata</i> 'Red Coral'	Succulent; 1m h; Unusual deep green, tubular leaves edged in red. The trunk becomes twisted and thick with age. Pinkish-white, star-shaped flowers form in clusters at the ends of branches; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Crassula pellucida</i> ssp. <i>marginalis</i> 'Variegata'	Succulent; S Africa; A low growing, spreading succulent with small, fleshy, heart-shaped, red, green and lemon variegated leaves. Flowers are white or near white. Good for rockeries or hanging baskets; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Crassula perforata</i> 'Variegata'	Succulent; 0.2m h x 0.2m w; Shrubby, erect succulent with variegated green and yellow triangular leaves, which may turn green in Spring. White flowers late in Summer; Sun/Semi-shade; Well-drained; Adaptable; Drought Tolerant
<i>Crassula rupestris</i> 'Tom Thumb'	Succulent; Scrambling habit. Miniature form of <i>C. perforata</i> . Cream flowers, brown anthers. Leaf margins of red/yellow; Flowers: Spring/Summer; Sun; Well-drained
<i>Crassula streyi</i>	Succulent; S Africa; 0.3m h; The leaves are broad, fleshy, grey-green, and maroon in colour with dark green spots. Slow growing. Flowers are greenish-yellow, tinged red. Do not overwater; Flowers: Winter/Spring; Semi Shade; Well-drained; Drought Tolerant
<i>Cuphea</i> 'Starfire'	Shrub; Firecracker Plant; 0.6m h; Small, evergreen shrub. Pretty, tubular, pink flowers with flared purple/white tips. Prefers a sunny location but protect from heavy frost. Ideal for a container. Long flowering. Drought tender; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Curio talinoides</i>	Succulent; Narrow-Leaf Chalksticks; S Africa; 0.4m h; Evergreen, semi-trailing plant with bluish, grey-green, elongated succulent leaves. Excellent ground cover and suitable for pots; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Curio talinoides</i> ssp. <i>mandraliscae</i>	Succulent; Blue Chalksticks; 0.4m h; (syn. <i>Senecio mandraliscae</i>). Evergreen, erect or semi-trailing plant making an excellent groundcover of blue-grey, pencil-like fleshy leaves. Small white flowers in Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Cycas revoluta</i>	Shrub; Dwarf Sago Palm; S. Japan; 3.5m h x 2m w; Long lived, robust stemmed cycad, suitable for containers. A slow-growing feature plant which may reach 2m in Melbourne, with fronds to 2m. Tolerates poor light; Sun/Semi-shade; Adaptable
<i>Cymbidium</i> 'Rembrandt Masterpiece'	Orchid; Strappy green leaves with upright flower spikes bearing large, long-lasting lime-green flowers with a burgundy speckled lip. Protect from the hot afternoon sun and provide bright, filtered light; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained
<i>Cymbidium</i> hybrid (cream/white)	Orchid; Creamy-white flowers with a subtle pale-green tinge, and a white lip prominently speckled burgundy-red; Flowers: Spring; Semi Shade; Well-drained
<i>Cymbidium</i> hybrid (yellow/green)	Orchid; Light yellow/green petals. Spotted cream lip, tinged yellow. Early flowering; Flowers: Winter; Semi Shade; Well-drained
<i>Cymbidium lowianum</i> x <i>grandiflorum</i>	Orchid; Large green-yellow flowers, with a red lip, up to 10cm across, in long, arching, many flowered racemes; Flowers: Spring; Semi Shade; Well-drained
<i>Cyrilla racemiflora</i>	Shrub; Leatherwood; Americas; 4m h; Semi-deciduous shrub or small tree in temperate climates. Abundant racemes of small creamy-white fragrant flowers. Often has lovely autumn colour. Prefers a sheltered position; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained; Acidic

Genus/Species/Cultivar

Notes

<i>Cyrtanthus elatus</i>	Bulb; Scarborough lily; S Africa; 0.4m h; (syn. <i>Vallota speciosa</i>) Deciduous. Strap-like basal leaves with erect stems bearing showy, scarlet, trumpet-shaped flowers. Clump forming. Ideal for pots; Flowers: Autumn; Sun; Well-drained
<i>Cyrtanthus falcatus</i>	Bulb; S Africa; 0.2 - 0.4m h; A deciduous bulb with graceful, arching, sickle-shaped leaves and clusters of pendulous tubular flowers in shades of coral, orange, and red, often with green-tipped segments on stems to 80cm. Attracts nectar-feeding birds and other pollinators; Flowers: Spring/Summer; Semi Shade; Well-drained
<i>Daphne odora</i>	Shrub; China; 1m h x 1m w; Evergreen. Burgundy buds opening to terminal clusters of white, tinged burgundy, highly fragrant flowers; Flowers: Winter/Spring; Sun/Semi-shade; Moist/Well-drained; Acidic
<i>Dendromecon harfordii</i>	Shrub; Island Tree Poppy; Santa Cruz & Santa Rosa Islands; 2 - 6m h; Evergreen shrub or small tree with oval blue-green leaves and bright, single yellow flowers, 5 to 8cm across; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Deppea splendens</i>	Shrub; Mexico; 2 - 3m h; A rare, evergreen shrub or small tree with glossy, ribbed leaves and spectacular pendent flower clusters. Flowers are tubular, bright yellow-orange, with a large, wine-red, five-lobed calyx. Protect from the hot afternoon sun; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained; Frost Tender
<i>Deutzia gracilis 'Marmorata'</i>	Shrub; 1 - 1.5m h; A deciduous, compact shrub with striking variegated foliage of irregular splashes of cream and green. Clusters of white star-shaped flowers appear along graceful arching stems. A good highlight plant for semi-shade; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Deutzia x candelabra</i>	Shrub; 2m h; Upright, arching, deciduous shrub; leaves thin, bright green, thinly hairy. Star-shaped white flowers in dense upright panicles; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Dianthus 'Andy's Special'</i>	Perennial; 0.3m h; Profusion of fragrant rich cerise fringed flowers. Long flowering evergreen ground cover; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Dianthus 'Damask Superb'</i>	Perennial; 0.35m h; A compact mounding perennial with grey-blue leaves and striking magenta-red flowers with a darker red centre. Excellent for a cottage garden or rockery; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Dianthus 'Old Velvet'</i>	Perennial; 0.15 - 0.3m h; Evergreen, grey foliage. Semi-double velvety maroon flower with paler fringe and undersides. Good edging plant for cottage-style garden; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Dianthus 'Pink Mrs Sinkins'</i>	Perennial; 0.2m h x 0.3m w; Small ground covering perennial. Highly scented, with multiple pink blooms; Flowers: Summer; Sun; Moist/Well-drained; Drought Tolerant
<i>Dianthus barbatus 'Rockin Red'</i>	Perennial; 0.5m h; An evergreen clump-forming plant with scented red flowers. Ideal for containers, mass plantings, and cottage gardens plus ideal for cutting; Flowers: Spring to Autumn; Sun; Well-drained; Drought Tolerant
<i>Diplacus longiflorus (apricot)</i>	Shrub; California; 0.5 - 1.2m h; A hardy semi-evergreen shrub producing tubular yellow to orange flowers, attracting pollinators and birds. Prune after flowering; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Diplacus longiflorus (red)</i>	Shrub; California; 0.5 - 1.2m h; A hardy semi-evergreen shrub producing tubular red flowers, attracting pollinators and birds, prune after flowering; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Disterigma alaternoides</i>	Shrub; Neotropical Blueberry; CS America; 4m h; Terrestrial or epiphytic evergreen shrub with small, white, tubular flowers. Fruit, 10mm round, varies in colour; Flowers: Summer; Sun/Semi-shade; Moist

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Dombeya tiliacea</i>	Tree; S Africa; 2 - 5m h; (syn. <i>D. natalensis</i>) Deciduous shrub or small tree. Clusters of pendent, fragrant white flowers. Finely toothed, heart-shaped leaves 10cm. Spreading branches, bushy crown. Light frost tolerance; Flowers: Autumn/Winter; Sun; Moist/Well-drained; Frost Tender
<i>Dudleya brittonii</i>	Succulent; California; 0.3 - 0.9m h x 0.5m w; Stout, erect non branching succulent. Broad whitish, mealy leaves in a solitary rosette. Pale yellow flowers. Protected position; Flowers: Spring; Sun; Well-drained; Frost Tender
<i>Dudleya virens ssp. hassei</i>	Succulent; Santa Catalina Is, California; 0.1m h; A small, clump-forming perennial with bluish-green rosettes and pale yellow to white starry flowers on stems to 30cm. Endemic to Santa Catalina Island. Ideal for containers or rock gardens; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Echeveria 'Black Prince'</i>	Succulent; 0.3m h; Pointy, dusky chocolate leaves form rosettes to 15cm. Handsome plant with leafy stems of deep red flowers. Slow growing; Flowers: Winter; Sun; Well-drained
<i>Echeveria 'Chroma'</i>	Succulent; Attractive, fleshy, rose-shaped leaves that exhibit various colours of pink, purple and green. The leaf tips are often edged in red or orange. The small orange-pink flowers are in clusters on tall, slender stalks; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Echeveria 'Laulensis'</i>	Succulent; An attractive plant with chunky pointed foliage in tones of blue-green, rosy purple, and pink. The flowers are yellow and coral pink with pink stems. Quite prolific; Sun/Semi-shade; Well-drained
<i>Echeveria 'Nixiana'</i>	Succulent; 0.5m h x 0.5m w; Small rosette of pastel-blue leaves. Orange bell-shaped flowers; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Echeveria 'Perle von Nurnberg'</i>	Succulent; (<i>E. gibbiflora</i> x <i>E. elegans</i>) Mostly a solitary habit, reaching up to 15cm across, then growing upwards on thin stems. Leaves are a dramatic violet/deep pink colour when grown in full sun; Sun/Semi-shade; Well-drained; Frost Tender
<i>Echeveria 'Violet Queen'</i>	Succulent; 0.2m h; Attractive rosettes of grey/green leaves with violet-coloured tips. Pastel blue/green flowers, tinged violet. Ideal for pot or garden; Flowers: Spring; Sun; Well-drained
<i>Echeveria colorata var. brandtii</i>	Succulent; S America; 0.15m h; Very attractive plant with plump, silvery-grey leaves tipped with dark red, with more brilliant colour in winter; Flowers: Spring/Summer; Sun/Semi-shade; Dry
<i>Echeveria derenbergii</i>	Succulent; Mexico; 0.1m h x 0.3m w; Rosettes of wedge-shaped, intensely white frosted light green, bristle-tipped leaves with red margins & tips. Racemes of bell-shaped orange flowers; Flowers: Spring; Sun; Well-drained; Frost Tender
<i>Echeveria elegans</i>	Succulent; Mexico; 0.1m h x 0.3m w; Stemless clumps form rounded silvery-blue rosettes. Yellow-tipped salmon/pink flowers, late Winter to Summer. Light frost tolerance; Sun; Well-drained
<i>Echeveria elegans 'Albicans'</i>	Succulent; 0.1m h x 0.3m w; Grows in dense clusters of pale grey-green plump rosettes. Easy to grow in well-drained soil, it produces elegant stems of salmon and yellow flowers in Spring; Sun; Frost Tender
<i>Echeveria halbingeri</i>	Succulent; Mexico; 0.2m h; Small pastel blue/green leaves densely arranged in rosettes. Distinct point at tip of the broad, short leaves. Flowers orange-chrome outside, light orange within. A very dainty plant; Flowers: Summer; Sun; Well-drained
<i>Echeveria x gilva 'Red'</i>	Succulent; 0.1 - 0.2m h; (<i>E. agavoides</i> x <i>E. elegans</i>) Clump-forming erect, waxy rosettes of mahogany-red leaves, green at the base, with an arching raceme holding a reddish-pink flower yellow within; Flowers: Spring; Sun; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Echinopsis oxygona</i>	Succulent; S America; 0.2 - 0.3m h x 0.3 - 0.6m w; A mat-forming cactus with globose to short cylindrical, ribbed stems. It produces large, fragrant, funnel-shaped white or pink flowers that bloom at night; Flowers: Summer; Sun; Well-drained
<i>Echinopsis pachanoi</i>	Succulent; San Pedro Cactus; Peru; 3 - 6m h; (syn. Trichocereus) Fast growing multi-columned cactus, coloured light to dark green, with a diameter of 6-15cm, and yellow to brown spines, but sometimes spineless. Large white flowers, grow at the ends of stems and open at night; Sun; Dry
<i>Ehretia dicksonii</i>	Tree; Asia; 10 - 15m h; An unusual, deciduous tree with rough, serrated leaves, fragrant white-yellow flowers, and small orange drupes. Its fissured bark adds winter interest; Flowers: Spring; Sun; Moist/Well-drained
<i>Elaeagnus umbellata</i> var. <i>rotundifolia</i>	Shrub; Japan; 3m h; Soft green ovate-orbicular leaves with silvery undersides and tubular, creamy yellow flowers; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Epidendrum ibaguense</i>	Orchid; Crucifix Orchid; C&S America; Racemes of flowers with a range of colours atop 50cm reed-like stems throughout the year. Clumping epiphyte. Warm position; Sun; Well-drained
<i>Epidendrum ibaguense</i> cv (orange form)	Orchid; C&S America; 0.6 - 1.2m h; Terrestrial or epiphytic plant featuring tall, reed-like stems and clusters of small, star-shaped orange flowers. Hardy, easy to grow, and long flowering, it attracts butterflies and other pollinators; Sun/Semi-shade; Well-drained
<i>Epidendrum ibaguense</i> cv (red form)	Orchid; Crucifix Orchid; C&S America; Epiphytic orchid with lengthy reed-like stems carrying fleshy light green leaves and heads of red flowers sporadically throughout the year. Grow in a pot, bed, or attached to a tree; Sun/Semi-shade; Well-drained
<i>Epimedium 'Creamsicle'</i>	Perennial; 0.2m h; Rhizomatous groundcover forms dense carpets of green foliage heavily splashed in cream in spring. Masses of white flowers in arching sprays. Hardy when established; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained
<i>Epimedium epsteinii</i>	Perennial; W China; 0.2m h; Evergreen groundcover with beautiful bi-coloured flowers of white and reddish purple, with 10-30 flowers on each stem above glossy dark green leaves; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained
<i>Epimedium franchetii</i>	Perennial; Fairy Wings; W China; 0.6m h x 0.6m w; Low growing pretty groundcover for shady areas, under trees, and in rockeries. Elegant long pointed leaflets, with coppery mottled tones and tall sprays of stunning large yellow flowers with pale yellow sepals and long sulphur yellow petals; Flowers: Spring/Summer; Shade; Moist/Well-drained
<i>Epimedium grandiflorum 'Pierre's Purple'</i>	Perennial; 0.3m h; Beautiful, large, rich wine-purple flowers with white spur tips are borne against small leaflets flushed bronze; Flowers: Spring; Semi Shade; Moist/Well-drained; Drought Tolerant
<i>Epimedium grandiflorum 'Rose Queen'</i>	Perennial; 0.25m h x 0.6m w; Ground covering, rhizomatous plant with attractive heart-shaped pointed leaves, emerge bronze-purple in spring. Sprays of bright rosy-pink 2.5cm flowers, with long white spurs on stems above the foliage; Flowers: Spring; Shade; Moist/Well-drained
<i>Epimedium wushanense</i>	Perennial; China; 0.35m h x 0.8m w; Evergreen clumps of spiny, holly-like, long, narrow, glossy green foliage, which changes deep copper plum in Spring. Big yellow and cream flowers on 50cm stems; Flowers: Spring; Semi Shade; Moist/Well-drained
<i>Epimedium x versicolor 'Sulphureum'</i>	Perennial; Barrenwort; 0.3m h; Small dainty pale-yellow flowers. One of the best varieties. A woodland plant, suitable for dry shade under trees; Flowers: Spring; Semi Shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Erysimum 'Bowles's Mauve'</i>	Shrub; Wallflower; 0.6m h; A bushy evergreen with narrow, grey-green leaves and erect racemes of rich mauve flowers 2cm in width. Long flowering and butterfly attracting; Flowers: Spring/Summer; Sun; Well-drained
<i>Escallonia 'Apple Blossom'</i>	Shrub; 1.5m h x 1.5m w; Evergreen shrub with small, serrated, glossy leaves and white tinged pink flowers. Suitable for hedging. Prune lightly after flowering; Flowers: Summer; Sun; Drought Tolerant
<i>Escallonia illinita</i>	Shrub; Curry Bush; Chile; 3m h; White panicles to 10cm. Scents the air with curry when damp. Good hedge and screen plant; Flowers: Summer
<i>Eucomis comosa 'Alba'</i>	Bulb; S Africa; 0.5m h x 0.3m w; Pure white form. Tufts of leaves above flower head. Flower spike emerges from a handsome basal rosette of leaves; Flowers: Summer; Sun; Well-drained
<i>Eucomis comosa 'Oakhurst'</i>	Bulb; Deciduous. Strap-like burgundy green foliage with deep red stalks of creamy pink flowers; Flowers: Summer; Sun; Well-drained
<i>Eucomis comosa (dark form)</i>	Bulb; Pineapple Lily; 0.8m h x 0.3m w; Deciduous. Fat, dense spike of pink and reddish-brown flowers overtopped by tufts of small bracts. Very dark, strap-like foliage; Flowers: Summer/Autumn; Sun; Moist/Well-drained
<i>Eucomis vandermerwei</i>	Bulb; Spotted Leaf Eucomis; N S Africa; 0.1 - 0.5m h; Deciduous. Compact bulb forming a rosette of green leaves heavily spotted maroon with wavy margins. Distinctive pineapple-like flower heads bear maroon star-shaped flowers topped by a leafy crown. Excellent for pots and rockeries; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Eupatorium atrorubens (smaller form)</i>	Shrub; Mexico; 1.8m h; Evergreen. Large, flat, terminal clusters of fluffy, lilac flowers with soft, bronze-green leaves and stems. Drought tender; requires a protected position; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained; Frost Tender
<i>Euphorbia caput-medusae</i>	Succulent; S Africa; 0.2m h; A succulent known as Medusa's Head with a short, central caudex from which numerous snake-like grey-green stems radiate. It forms a sprawling mat up to 1m wide, blooms small yellowish flowers and is drought tolerant; Flowers: Spring; Sun/Semi-shade; Well-drained; Frost Tender
<i>Euphorbia decaryi</i>	Succulent; Madagascar; Small leafy shrub-like mat-forming succulent, with wavy, zig-zag edged leaves. Corky, root-like red/green stem, covered in scale-like leaves. Pinky-beige, bell-like flowers hang in short-stemmed groups; Flowers: Spring/Summer; Sun; Well-drained
<i>Euphorbia trigona</i>	Succulent; African Milk Tree; S Africa; 2.7m h; Unique succulent with an upright stem that is branched into 3 or 4 sides. Stem is dark green with V-shaped light green patterns. Has large thorns in pairs on ridges, and the teardrop shaped leaves grow between the 2 thorns. Only flowers if in the ground; Flowers: Spring/Summer; Sun; Well-drained
<i>Evolvulus pilosus 'Blue Eyes'</i>	Perennial; USA; 0.3m h x 1m w; Evergreen ground cover with silvery-green foliage and pretty, single blue flowers. Trim lightly after flowering; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Farfugium japonicum 'Aureomaculatum'</i>	Perennial; Leopard Plant; 0.3 - 0.6m h; Evergreen (in Melb.), clump-forming, rhizomatous plant with large heart-shaped, glossy green leaves, speckled creamy yellow. Clusters of yellow, daisy-like flowers appear in Autumn. Grows well in a pot; Semi Shade; Moist/Well-drained
<i>Fragaria x ananassa 'Summer Breeze Pink'</i>	Perennial; 0.2 - 0.3m h; Showy, double pink flowers followed by conical, mid-sized fruit throughout Summer. A compact variety suitable for hanging baskets; Sun; Well-drained
<i>Fuchsia 'Autumnale'</i>	Shrub; Prostrate habit. Green and yellow foliage that matures to dark red and salmon with splashes of yellow. Scarlet rose tubes and sepals with purple corolla. Ideal for hanging baskets; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Fuchsia 'Pinocchio'</i>	Shrub; 1.5m h x 1m w; Single. Reddish pink sepals with mauve corolla. Flowers for most of the year. Trailing habit; robust; Semi Shade; Moist/Well-drained
<i>Fuchsia 'Thalia'</i>	Shrub; 1m h x 1m w; Triphylla type with long flared tubular orange-red flowers much of the year. Red-veined dark green leaves. Drought tender. Prune early spring; Semi Shade; Moist/Well-drained; Frost Tender
<i>Fuchsia 'Tom West'</i>	Shrub; 0.2 - 0.6m h; Upright habit with vigorous lax growth. The leaves are variegated cream and green, with cerise veins and stems. The small single flowers have red tubes and sepals with purple corollas. Excellent for baskets; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Fuchsia arborescens</i>	Shrub; Tree Fuchsia; C America; 3m h x 3m w; Evergreen, large shrub or small tree. Erect clusters of cerise flowers. Protected part shade. Light frost tolerance. Drought tender. Can be pruned hard in Spring; Flowers: Spring/Summer; Well-drained
<i>Fuchsia procumbens</i>	Shrub; NZ; 0.1m h; Groundcover. Tiny erect yellow tubular flowers with purple sepals and bright blue pollen, followed by large red fruits. Suitable for hanging baskets; Semi Shade; Moist/Well-drained
<i>Fuchsia x bacillaris</i>	Shrub; Mexico; 0.5m h; (F. microphylla x F. thymifolia) Tiny leaves and small solitary flowers of pale pink. Good for hanging baskets; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Gardenia 'Grandiflora Star'</i>	Shrub; 0.5m h; Evergreen compact form. Glossy, dark green leaves with fragrant, star-shaped flowers during Summer. Grows well in pots; Semi Shade; Moist/Well-drained
<i>Gardenia jasminoides 'Aimee Yoshiba'</i>	Shrub; 1.5m h; Tall, evergreen variety with dark green glossy foliage and large double white scented flowers. Excellent for low hedges and containers. Prefers a sheltered position with morning sun; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Gardenia thunbergia</i>	Shrub; Africa; 3.5m h x 3m w; Slow-growing evergreen. Glossy deep green leaves with spectacular white tubular flowers, which are heavily perfumed; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained; Acidic; Frost Tender
<i>Gasteria 'Little Warty'</i>	Succulent; Stemless variety with thick green leaves heavily spotted in paler green. Waxy, globular salmon pink bell-shaped flowers with a green-tipped opening. Fan-shaped plant; Flowers: Spring/Summer; Semi Shade; Dry; Drought Tolerant
<i>Gasteria batesiana</i>	Succulent; S Africa; 0.1m h x 0.3m w; Slow growing, clump forming habit. Thick, fleshy, mottled leaves triangular in shape with small teeth along the edges. Bird attracting, tubular flowers in shades of pink and green; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Gasteria grandiflora</i>	Succulent; S Africa; Bell-shaped flowers on long stems; Flowers: Spring/Summer; Semi Shade; Dry; Neutral; Drought Tolerant
<i>Gasteria liliputana</i>	Succulent; S Africa; 0.15m h; One of the smallest Gasterias with glossy, white mottled, deep green slightly pointed leaves in a rosette and pendulous flowers of reddish pink; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Gasteria pillansii</i> var. <i>ernesti-ruschii</i>	Succulent; Namibia; Stoloniferous plants form dense clumps of up to 12 white-spotted leaves. Large, red flowers; Sun; Well-drained
<i>Gasteria verrucosa</i>	Succulent; S Africa; Dark green fleshy leaves in facing rows. Leaves covered with small white tubercles. Racemes of reddish orange flowers; Flowers: Spring/Summer; Sun; Well-drained
<i>Geranium x magnificum</i>	Perennial; 0.6 - 0.9m h; Clump-forming, with dark violet-blue flowers up to 5cm in diameter. A showy, vigorous, disease resistant plant; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Ginkgo biloba</i>	Tree; Maidenhair Tree; China; 10 - 15m h; Deciduous living fossil. Upright when young, spreading with age. Bright green fan-shaped leaves turn buttery gold in Autumn. Long living; Sun/Semi-shade; Moist/Well-drained
<i>Graptopetalum 'Purple Delight'</i>	Succulent; 0.1m h; This lovely cultivar has grey heart-shaped leaves with dark pink blotches. Delicately branched stems each hold yellow star flowers at their tips. The plant branches from the base to form several heads; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Graptopetalum paraguayense</i>	Succulent; Mexico; 0.2m h; Prostrate clump forming. Pearly succulent rosettes of leaves. Cymes of star-shaped red spotted white flowers. Sharply drained soil; Flowers: Winter/Spring; Sun; Dry; Frost Tender
<i>Haemanthus coccineus</i>	Bulb; Paint Brush Lily; S Africa; 0.3m h x 0.5m w; Deciduous. Unusual scarlet flowers with gold-tipped stamens emerge from the top of the large bulb, followed by two enormous dark green glossy leaves (30cm) that lie on the ground; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Haworthia attenuata</i>	Succulent; S Africa; 0.25m h; Stemless clustering perennial plant, eventually forming large clumps. Dark green pointed leaves, strikingly banded or spotted with whitish-green keels. Ever-blooming if dead blooms are removed; Sun/Semi-shade; Well-drained; Frost Tender
<i>Haworthia cooperi</i>	Succulent; S Africa; 0.05 - 0.1m h; Unusual, slow growing plant that grows in clumps of small rosettes with fleshy translucent leaves. Flowers are a pinkish-white; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Haworthia cuspidata</i>	Succulent; S Africa; (H. cymbiformis x H. retusa) Lime green triangular leaves in individual rosettes that clump together. Offsets freely and is a good indoor plant. White tubular flowers in Summer; Sun/Semi-shade; Dry
<i>Haworthia fasciata</i>	Succulent; Zebra Haworthia; S Africa; 0.15m h; A compact succulent forming stemless rosettes of thick, dark green triangular leaves with distinctive white raised bands and tubercles. Slow growing and easy care, it is ideal for pots, rockeries and small spaces. Prefers bright filtered light; Well-drained; Frost Tender
<i>Haworthia mirabilis var. mundula</i>	Succulent; S Africa; Stemless, slowly proliferous species. Its triangular, pointed, and flattened leaf tips will turn brown in full sun. White tubular flowers in Summer/Autumn; Sun/Semi-shade; Well-drained
<i>Haworthia mutica-otzeniana</i>	Succulent; S Africa; Rare succulent plant with rosettes of triangular leaves in brown-green. Looks like soil or stones in the wild. Long lasting, easy maintenance indoor plant. White tubular flowers on a stem; Flowers: Summer; Semi Shade; Dry
<i>Haworthia reinwardtii</i>	Succulent; S Africa; 0.15m h; Dark green to yellow-green rosettes with a dense spiral form, which may grow into small towers. Lance-shaped leaves with small white tubercles. Tubular pinkish-white flowers on long stems; Flowers: Spring; Sun/Semi-shade; Well-drained; Frost Tender
<i>Haworthia reinwardtii var. chalwinii</i>	Succulent; S Africa; (syn. H. coarctata f. chalwinii) Small plant with many upright leaf-clad stems radiating from an offset base. Leaves are triangular, dotted with white slightly raised tubercles. Green leaves turn reddish in low light. White tubular flower on 30cm stem; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Haworthia venosa ssp. tessellata</i>	Succulent; S Africa; Mat-forming, spreading by subterranean branches. Bluish-grey-green flowers; Flowers: Spring; Well-drained; Frost Tender
<i>Hebe 'Marie Antoinette'</i>	Shrub; 0.6m h; Attractive, evergreen, low-growing plant with narrow green leaves; the new tips are a burgundy colour deepening in the colder months. Spikes of pink flowers fade to white. Grows well as a hedge, border or in a large container; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Hebe 'Wiri Cloud'</i>	Shrub; 0.5m h; Hardy, evergreen, compact shrub with attractive pink/white flowers and small mid-green leaves. Lightly prune after flowering; Flowers: Summer; Sun/Semi-shade; Well-drained

Genus/Species/Cultivar

Notes

<i>Helenium 'Riverton Beauty'</i>	Perennial; 1.2m h; Clump forming with toothed, dark green leaves and clusters of yellow-brown cone flowers on strong, upright stems; Flowers: Summer/Autumn; Sun; Well-drained
<i>Helichrysum argyrophyllum</i>	Perennial; Everlasting Flower; S Africa; 0.1m h x 0.5m w; Low-growing, mat-forming plant with silvery foliage and bright yellow, daisy-like flowers. Good for cascading over rocks or edges of raised beds; Flowers: Summer/Autumn; Sun; Well-drained; Drought Tolerant
<i>Helichrysum italicum</i>	Herb; Curry Plant; SW Europe; 0.3 - 0.6m h x 0.4 - 0.6m w; (syn. <i>H. angustifolium</i>) A small, evergreen shrub with silvery-grey, aromatic leaves and clusters of tiny yellow flowers. Its foliage releases a curry-like scent and is prized for use in dried arrangements, herbal oils, and drought tolerant gardens; Flowers: Summer/Autumn; Sun; Well-drained
<i>Heliotropium arborescens 'Lord Roberts'</i>	Perennial; 0.6 - 1m h x 1m w; Attractive contrast plant with purple foliage and flowers. Long flowering, with a slight perfume; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Frost Tender
<i>Helleborus x hybridus 'Chisai'</i>	Perennial; 0.3m h; A more compact variety with slightly smaller flowers that are semi-double or double in shades of pink to burgundy; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (apricot/peach red centre)</i>	Perennial; Apricot to peach base colour with a lovely flush of burgundy in the centre of the flower. Very unusual; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (bicolours)</i>	Perennial; Elegant flowers with distinctive pink to red markings painted across creamy sepals, creating a striking bicolor effect. Dark central nectaries enhance each bloom. Long flowering; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (double green picotee)</i>	Perennial; Bears elegant double pale-green flowers with each sepal finely edged with rich burgundy, creating a picotee effect; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (double primrose yellow)</i>	Perennial; Lovely pale primrose doubles are quite rare. Grow under deciduous trees; Flowers: Winter/Spring; Semi Shade; Well-drained
<i>Helleborus x hybridus (double purple)</i>	Perennial; 0.4m h x 0.5m w; Double purple flowers and deep green leaves; Flowers: Winter/Spring; Semi Shade; Adaptable
<i>Helleborus x hybridus (double white)</i>	Perennial; Excellent under deciduous trees. Feed well for best results. Cut back old foliage in April/May. Tolerates drier soil in summer; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (green red flush)</i>	Perennial; Pale to mid green with a striking flush of burgundy in the centre; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Helleborus x hybridus (Hercegovinus hybrid black)</i>	Perennial; 0.3 - 0.5m h; Spectacular, finely divided foliage with striking dark purple to near black flowers; Flowers: Winter; Semi Shade; Moist/Well-drained
<i>Hemerocallis 'Bettylen'</i>	Perennial; 0.45 - 0.6m h; A reblooming daylily forming neat clumps of arching, strap-like green foliage. It produces large, richly coloured flowers with deep burgundy-purple petals, a vivid green throat and softly ruffled pale edges. Low maintenance; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Herbertia pulchella</i>	Bulb; S America; 0.2m h; Deciduous. Produces tiny iris-like lavender-blue flowers with a darker centre and white central stripe above slender grassy foliage. Flowers open in sunshine; Flowers: Spring; Sun; Well-drained
<i>Hesperantha coccinea</i>	Bulb; River Lily; S Africa; 0.4 - 0.6m h; Slender lanceolate leaves up to 40cm long. The flowers are red, occasionally pink or white, with 6 petals, produced in groups of 4 to 10 alternately on a spike. Grown for its flowers; Flowers: Summer/Autumn; Sun; Well-drained
<i>Hibiscus paramutabilis</i>	Shrub; China; 1 - 3m h; Deciduous shrub or small tree with attractive, large, deep pink, open single flowers on upper branches; Flowers: Summer/Autumn; Sun; Moist/Well-drained

Genus/Species/Cultivar

Notes

<i>Hibiscus rosa-sinensis</i> 'Dawn'	Shrub; 2.5m h; Large, evergreen shrub with dark green leaves with maroon veins. Large single pink flowers; Flowers: Summer; Sun; Moist/Well-drained
<i>Hibiscus rosa-sinensis</i> 'Holly's Pride'	Shrub; 2m h x 2m w; Prolific supply of soft apricot-peach double blooms during Summer and Autumn. Fast growing tall evergreen dense bush; Sun/Semi-shade; Moist/Well-drained
<i>Hippeastrum papilio</i>	Bulb; Brazil; 0.5m h; A rare, evergreen bulbous perennial. It features orchid-like flowers with greenish-white petals adorned with dark red streaks. Avoid overwatering in cooler temperatures; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Hosta</i> 'Allan P. McConnell'	Perennial; 0.3m h x 0.45m w; Small dark green oval leaves with narrow pure white margins, form a tight mound. Lilac flowers on 40cm stalks. Good rapid growing edging plant; Flowers: Summer; Shade; Moist
<i>Hosta</i> 'Blue Cadet'	Perennial; 0.4m h; Attractive, low-growing rosette of blue-grey leaves. Light purple flowers. Watch for snails; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hosta</i> 'Blue Mouse Ears'	Perennial; 0.15m h x 0.3m w; Leaves blue-grey, cupped and rounded like mouse ears. Tight, wide mounds of small leaves. Short-scaped lavender blue flowers are perfectly to scale. Sport of 'Blue Cadet'. Slug resistant and ideal for containers; Flowers: Summer; Shade; Moist/Well-drained
<i>Hosta</i> 'Brim Cup'	Perennial; 0.3m h; Herbaceous. Deep green, upwardly cupped, lightly corrugated leaves with a wide, streaky white margin. Clusters of lavender flowers sit above the leaves. Suitable for containers; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hosta</i> 'Chinese Sunrise'	Perennial; 0.35m h x 0.6m w; Profusion of bell-shaped purple flowers on leaning, leafy, 70cm stems. Leaves medium-sized, thin, glossy, and narrowly lanceolate, tapering to a point and fading to light green (viridescent), with a regular, narrow, deep green margin; Flowers: Summer/Autumn; Semi Shade; Moist; Neutral
<i>Hosta</i> 'Fortunei Aureomarginata'	Perennial; 0.45m h x 0.6m w; Leaves deep olive green with a rich golden yellow margin fading to cream in strong light. The funnel-shaped flowers ranging from pale to deep lavender, are produced on straight, leafy stems in Dec to mid-Jan; Semi Shade; Moist
<i>Hosta</i> 'Fragrant Blue'	Perennial; Frosted green young leaves developing to blue: small, thick, very smooth, flat, heart-shaped. Palest lavender to white scented flowers on straight leafy 20cm scapes in Summer; Semi Shade; Moist/Well-drained
<i>Hosta</i> 'Geisha'	Perennial; 0.25m h x 0.3m w; Leaves small, ovate, slightly wavy, curving upwards with a twist, tip curling under, glossy, chartreuse to yellow streaked, with wide mid-green margins. Flowers bell-shaped, lavender on straight, leafy 35cm stems in Summer; Semi Shade; Moist
<i>Hosta</i> 'Glory'	Perennial; 0.65m h x 0.65m w; Bright, golden heart-shaped leaves with prominent venation, puckered and powdery beneath. In spring, lovely glaucous blooms over lemon leaves. Soft glaucous green at base. Pale lavender flowers held above foliage on bare 70cm scapes. Colours better in sun; Semi Shade; Moist/Well-drained
<i>Hosta</i> 'Golden June'	Perennial; Green-gold coloured foliage; Semi Shade; Moist
<i>Hosta</i> 'Honeybells'	Perennial; 0.6m h x 1.2m w; Leaves large, lax, widely oval, blade undulate, light glossy green. Flowers lightly fragrant, bell-shaped, white streaked lavender on 150cm stems. Vigorous; Flowers: Summer; Semi Shade; Moist
<i>Hosta</i> 'Invincible'	Perennial; 0.4m h x 1m w; Densely mounded. Large, thick, wedge-shaped, very undulate leaves. Olive green above, shiny beneath. Abundance of fragrant funnel-shaped, occasionally double lavender flowers. Reasonably slug and snail proof; Flowers: Autumn; Semi Shade; Moist
<i>Hosta</i> 'June'	Perennial; Yellow leaves with irregular blue-green margin. Requires some sun to develop yellow colour; Flowers: Summer; Semi Shade; Moist

Genus/Species/Cultivar

Notes

<i>Hosta 'Kiwi Full Monty'</i>	Perennial; 0.5m h x 0.65m w; Very distinctive colouration. Leaves glaucous blue-green, puckered with central chartreuse region that ages yellow. Region is edged with an irregular bright white line. Sport of 'Striptease'. Lavender flowers in Summer; Semi Shade; Moist/Well-drained
<i>Hosta 'Lemon Lime'</i>	Perennial; 0.3m h x 0.45m w; Small, lance-shaped, bright chartreuse, flat leaves. Bell-shaped, lavender, striped purple flowers on straight, bare 45cm stems; Flowers: Summer; Shade; Moist
<i>Hosta 'Love Pat'</i>	Perennial; 0.6m h x 0.6m w; Intensely glaucous blue leaves, medium to large, thick, very cupped and deeply puckered, heart shaped. Bell-shaped, palest lavender to nearly white flowers on bare, straight stems; Flowers: Summer; Semi Shade; Moist
<i>Hosta 'Minuteman'</i>	Perennial; 0.6m h x 0.9m w; Herbaceous. Large, cupped leaves that emerge late; narrowly heart-shaped, blue-green with a wide, white margin. Funnel-shaped lavender flowers on leaning leafy stem; Flowers: Summer; Semi Shade; Moist
<i>Hosta 'Striptease'</i>	Perennial; 0.5m h x 0.9m w; Leaves large, heart-shaped, chartreuse with wide dark green margins often with a fine to flecked white line at the junction of the two colours. Lavender flowers on straight, bare 106cm scapes in Summer. Sport of 'Gold Standard'; Shade; Moist/Well-drained
<i>Hosta 'Summer Fragrance'</i>	Perennial; 0.6m h x 1m w; Large, mid-green leaves with an irregular cream margin with some grey streaking towards the centre. Flowers fragrant, large, rich lavender-purple on straight, bare, 150cm scapes. Makes a large, very dense clump and tolerates more sun than most; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Hosta 'Undulata'</i>	Perennial; 0.35m h x 0.45m w; White leaves with two-tone green margins, green overlapping white. Funnel shaped lavender flowers on straight, ivory stems; Flowers: Summer/Autumn; Shade; Moist
<i>Hosta 'Undulata Albomarginata'</i>	Perennial; 0.45m h x 0.9m w; Oval flat leaves, dark green, with irregular white margins. Lavender flowers on leafy stems in Summer; Semi Shade; Moist
<i>Hosta 'Whirling Dervish'</i>	Perennial; 0.55m h x 0.65m w; Slightly cupped leaves dark green with wide yellow margins turning to white by mid-summer. Lavender flowers on metre high scapes in mid-summer; Moist/Well-drained
<i>Hosta plantaginea</i>	Perennial; China; 0.6m h x 0.9m w; Herbaceous. Fragrant white flowers on tall spikes, late summer. Pale green leaves. Damp site. Shade to semi-shade but tolerates more sun than other hostas
<i>Hosta ventricosa</i>	Perennial; China; 0.6m h x 0.9m w; Handsome plant with violet-blue bell flowers on tall stems, mid-summer. Leaves glossy spinach-green with deep veins and rippled margins. Prefers moist to damp conditions. Beware of snails; Semi Shade
<i>Hoya carnosa</i>	Climber; India, Burma; Vigorous epiphytic climber. Ovate, fleshy, dark green waxy leaves. Dense umbels of star-shaped waxy white flowers with red coronas. Strong night fragrance. Protect from heavy frost. Good indoor plant; Flowers: Summer/Autumn; Semi Shade; Well-drained
<i>Hoya carnosa 'Krinkle Kurl'</i>	Climber; Hindu Rope; Unusual species of vine. Dark green glossy leaves contorted and cupped, making an almost rope-like appearance. Slow, but easy to grow. Flowers in clusters of mildly fragrant, star-shaped, pink-white blossoms; Flowers: Spring/Summer; Semi Shade; Well-drained
<i>Hoya lanceolata ssp. bella</i>	Climber; Miniature Wax Flower; India; 0.5m h; Trailing evergreen. Flat umbels of small star-shaped scented white flowers with pink centres. Humus-rich soil. Good in hanging baskets; Flowers: Summer/Autumn; Semi Shade; Well-drained; Alkaline; Frost Tender
<i>Hoya obovata 'Splash'</i>	Climber; Thick round and slightly waxy leaves with irregular silver or light green splashes. Clusters of small, star-shaped flowers are pale pink with a darker centre and a soft, sweet fragrance; Flowers: Summer; Semi Shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Hoya polyneura</i>	Climber; Fishtail Hoya; India & Himalaya; Epiphytic climber. Leaves to 8cm long, light green with darker green prominent veins. The reflexed flowers are creamy yellow with red coronas and have a light fragrance; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hoya pubicalyx</i>	Climber; Philippines; Easy to grow climber. Narrow leaves with silver flecks. The flower colour varies from pink with a white corona to almost black with a red corona. Some plants even have different colours in the same umbel. Strong fragrance; Flowers: Summer; Semi Shade; Moist
<i>Hoya subcalva</i>	Climber; New Guinea; Dark green glabrous leaves, and large, waxy bubblegum-pink flowers. Fruity fragrance; Flowers: Summer; Sun/Semi-shade; Moist
<i>Hydrangea 'Mme Emile Mouillere'</i>	Shrub; Deciduous. Excellent white variety. White mophead flowers ageing to pink-tinged. Drought tender. Protect from afternoon sun; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hydrangea aspera</i> ssp. <i>aspera</i>	Shrub; Himalayas; 2.5m h x 2.5m w; Semi-deciduous. Blue, mauve, or pink flattish lacecaps; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Hydrangea macrophylla</i> 'Ami Pasquier'	Shrub; 1.5m h x 2m w; Deciduous, mophead variety. Small to medium-sized shrub. Rose-mauve to magenta-red blooms are produced all summer. Leaves turn red in autumn. One of the best crimson hydrangeas for alkaline soil; Sun/Semi-shade; Moist/Well-drained
<i>Hydrangea macrophylla</i> 'Variegata'	Shrub; 1.5m h x 1.5m w; Attractive variegated leaves. Lacecap variety with colour dependent on soil pH; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hydrangea macrophylla</i> cv	Shrub; 1.5m h; Large mophead blooms pale pink or blue flowers with unusual individual cup-shaped florets; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Hydrangea quercifolia</i>	Shrub; SE USA; 1.2m h x 1.2m w; Semi-deciduous. Attractive oak-shaped leaves colour to bronze-purple in autumn. White flower panicles, becoming pink-tinged with age. Avoid late afternoon sun; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Hydrangea quercifolia</i> 'Snowflake'	Shrub; Oak-leaved hydrangea; Semi-deciduous. Arching pyramidal panicles of long lasting double white flowers later turning pink. Deep green, oak-shaped leaves; maroon to purple autumn colour. Lightly prune immediately after flowers have faded; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Hydrangea serratifolia</i>	Climber; Chile; 15m h; Evergreen self-clinging. Corymbs of numerous small white sterile flowers; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Hymenocallis x festalis</i>	Bulb; Spider Lily; 0.6 - 0.8m h; Deciduous bulb producing fragrant pure white flowers with a trumpet-shaped cup and long, narrow, gracefully recurved petals. Bold strap-like foliage provides an attractive backdrop, making it a striking feature in borders, pots and mass plantings; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Illicium floridanum</i>	Shrub; Purple Anise; SE USA; 2.5m h x 2.5m w; Evergreen, upright, much branched shrub. Star-shaped copper to dark red flowers; many narrow petals. Aromatic foliage, poisonous to livestock; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained; Acidic
<i>Iresine herbstii</i>	Perennial; Beefsteak Plant; Brazil; 1.5m h; Bright purple-red, somewhat succulent leaves with pink veins. Grown for its foliage. Protected position; Sun/Semi-shade; Well-drained; Frost Tender
<i>Iris confusa</i>	Rhizome; Bamboo Iris; W China; 0.6 - 0.9m h; Exotic looking crested iris, with sprays of bamboo like leaves. Flowers, at the end of a long stem, may range from white to a soft lavender, with orange-yellow crests and purple dots. Similar to, but larger than <i>I. japonica</i> ; Flowers: Spring; Sun; Well-drained
<i>Iris japonica</i> 'Variegata'	Rhizome; China/Japan; 0.3m h; Frilled, ruffled pale blue or lavender flowers. Attractive variegated foliage. Vigorous. Ideal woodland plant. Protect from hot afternoon sun; Flowers: Winter/Spring; Semi Shade; Well-drained; Acidic

Exotic

Genus/Species/Cultivar

Notes

<i>Iris tectorum</i>	Rhizome; Japanese Roof Iris; Central & SW China; 0.4m h x 1m w; Crested violet blue fading to lilac/blue flowers. Can also be white. Ideal woodland plant, that grows vigorously, and quickly forms dense clumps. Protect from hot afternoon sun. Frost hardy; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Iris versicolor</i>	Rhizome; N America; 0.6 - 0.9m h; Clump-forming perennial with narrow, sword-shaped leaves and attractive pale blue to blue-purple flowers marked with yellow and white veining. Suited to moist or boggy soils; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Iris wattii</i>	Rhizome; China, Japan; 1.2m h; Pale blue/lavender flowers similar but slightly larger and more intense colour than <i>Iris japonica</i> . Ideal woodland plant. Evergreen; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained; Acidic
<i>Iris (IB) 'Old Gold'</i>	Rhizome; Primuline yellow ruffled standards, gold overlaid, buff falls, with a distinct yellow beard. Mid-season flowering; Sun; Well-drained
<i>Iris (TB) 'Chestnuts Roasting'</i>	Rhizome; 0.9m h; Ruffled, heavily laced flowers in rich chestnut brown, with warm golden-brown markings around the centre and mustard-gold beards. The falls are darker towards the centre, creating a striking contrast; Flowers: Spring; Sun; Well-drained
<i>Iris (TB) 'Jealous Guy'</i>	Rhizome; 0.95m h; Bubble-ruffled copper-brown, coffee-cream standards, with a lavender blush at midrib, and a bright lavender blaze below a tango beard. Fragrant; Flowers: Spring; Sun; Well-drained
<i>Iris (TB) 'Sorbonne'</i>	Rhizome; 1m h; Black/red standards with a slight peppering of yellow. Creamy-white centres in the falls and speckled red-brown streaks. Mid to late bloomer; Flowers: Spring; Sun; Well-drained
<i>Iris (TB) 'Spring Madness'</i>	Rhizome; 0.9m h; Copper-brown/white/yellow ruffles with yellow speckles and a yellow-orange beard. Slight fragrance. Mid to late bloomer; Flowers: Spring; Sun; Well-drained
<i>Iris (TB) 'Tintinara'</i>	Rhizome; Australian cv; (1988 L. Donnell) Red-brown standards with orange beard; Flowers: Spring; Sun; Well-drained; Alkaline
<i>Itea ilicifolia</i>	Shrub; Holly Sweetspire; W China; 4m h; Evergreen. Glossy holly-like leaves; fragrant flowers in long catkins up to 35cm long are pale greenish-yellow; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained; Drought Tolerant
<i>Justicia adhatoda</i>	Shrub; Malabar Nut; India, Sri Lanka; 2 - 3m h x 2m w; Evergreen. Lush lime green leaves. White, hooded flowers with red markings on a distinctly curved upper lip, held on spikes; Flowers: Spring; Sun/Semi-shade; Well-drained; Frost Tender
<i>Justicia brandegeana</i> 'Yellow Queen'	Shrub; Yellow Shrimp Plant; 0.5m h x 0.5m w; (syn. <i>Drejerella guttata</i>) Tough evergreen with white flowers hidden by overlapping yellow bracts, mainly in Summer; Sun/Semi-shade; Adaptable; Drought Tolerant; Frost Tender
<i>Justicia carnea</i>	Shrub; Flamingo Plant; Brazil; 2m h x 1.5m w; (syn. <i>Jacobinia carnea</i>) Evergreen. Warm pink bracts on long spikes; attractive deep green leaves. Grows well in shaded areas. Cut back after flowering; Flowers: Summer/Autumn; Semi Shade; Moist; Frost Tender
<i>Justicia carnea</i> 'Alba'	Shrub; 1.5m h x 1.5m w; Evergreen, soft-wooded shrub with showy terminal spikes of pure white flowers. Grows well in the shade. Cut back in spring to encourage new growth; Flowers: Summer/Autumn; Well-drained; Frost Tender
<i>Justicia floribunda</i>	Shrub; Brazil; 0.6m h x 0.6m w; (syn. <i>J. rizzini</i>) Compact evergreen with delicate tubular flowers in brilliant scarlet, orange and yellow; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained; Frost Tender
<i>Justicia fulvicoma</i>	Shrub; Mexico; 0.6m h; Considered one of the showiest species, with dramatic burnt orange bracts and orange-red flowers. Suitable for outdoors and pots. Tolerant of dry conditions once established; Flowers: Autumn/Winter; Semi Shade; Well-drained

Genus/Species/Cultivar

Notes

<i>Kalanchoe bracteata</i>	Succulent; Madagascar; 1.2m h; Lanceolate leaves of silvery pastel green, caused by very fine downy 'fur' on the surface. Flowers orange/red in Spring; Sun/Semi-shade; Well-drained
<i>Kalanchoe grandiflora</i>	Succulent; Silver Teaspoons; India/E Africa; 0.7m h x 0.3m w; Blue-green foliage with oval leaves and small yellow tubular flowers on an erect stem; Flowers: Summer; Sun; Well-drained; Frost Tender
<i>Kalanchoe pumila</i> 'Quick Silver'	Succulent; 0.2m h x 0.25m w; Silver-grey leaves. Open position. Pink flowers in Spring/Summer; Sun; Well-drained
<i>Kalanchoe tomentosa</i> 'Velvet Brown'	Succulent; 0.3m h; A small shrubby plant with hairy grey-green stems and leaves, giving it a furry appearance. The tips of each leaf are edged with dark brown. Flowers are deep red, hairy bells in Winter; Sun/Semi-shade; Well-drained
<i>Kerria japonica</i> 'Pleniflora'	Shrub; Wild Rose; China, Japan; 3m h x 3m w; Deciduous. Suckering habit. Pompom-like bright yellow-orange flowers. Prune after flowering; Flowers: Spring/Summer; Sun/Semi-shade; Drought Tolerant
<i>Laurus nobilis</i>	Tree; Bay Laurel; Mediterranean; 18m h; Evergreen, pyramid shape. Classic culinary species excellent for hedging, screening, topiary, and pot-culture. Essential oils used in fragrances and perfumes. Ancient Greeks & Romans traditionally used the leaves to crown victors; Flowers: Spring; Semi Shade; Well-drained
<i>Lavandula buchii</i>	Perennial; Canary Is; 0.6m h; Compact evergreen plant with grey-green, bipinnate, lacy foliage and violet-blue flowers on branched spikes. Attracts bees and butterflies; Flowers: Summer/Autumn; Sun; Well-drained
<i>Lepechinia hastata</i>	Perennial; Mexico (Baja California); 1 - 1.5m h; A distinctive aromatic perennial with large, soft, grey-green, spear-shaped leaves and tall spikes of tubular purple-magenta flowers. Prefers good drainage and resists light frost. Can be pruned hard late Winter; Flowers: Summer/Autumn; Sun; Well-drained
<i>Lepechinia salviae</i>	Perennial; Pitcher Sage; C Chile; 1.2 - 1.5m h; A bushy plant with aromatic, blue-green, textured foliage and dark magenta-plum tubular flowers. Prune to the ground late Winter; Flowers: Summer; Sun; Well-drained
<i>Leucadendron argenteum</i>	Tree; Silver Tree; S Africa; 5 - 7m h; Erect, evergreen tree with soft, lance-shaped, silvery leaves covered in fine hairs. The species is dioecious, with separate male and female plants producing spherical flower heads in Spring; Sun; Well-drained
<i>Leucadendron salignum</i> 'Devil's Blush'	Shrub; 1m h x 1m w; A compact, evergreen cone-bush grown for its striking deep red to burgundy bracts that intensify in cooler months. Suitable as a low hedge or in containers and prized as a long-lasting cut flower; Flowers: Winter; Sun; Well-drained; Drought Tolerant
<i>Lilium cv</i> (yellow trumpet)	Bulb; One unbranched, leafy stem with yellow trumpet-shaped flowers; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Liriope muscari</i> 'Variegata'	Perennial; Japan, China; 0.3m h x 0.5m w; Evergreen plant with dense tufts of arching, green and yellow striped leaves, bearing spikes of small lavender to purple flowers. Ideal for edging and adding contrast in gardens; Flowers: Autumn; Sun/Semi-shade; Adaptable
<i>Loropetalum chinense</i> var. <i>rubrum</i> 'Blush'	Shrub; India, China, Japan; 2.5m h x 1.5m w; Evergreen, compact shrub. New foliage is red green, maturing to olive green. Frilly deep-pink flowers year round; Semi Shade; Moist/Well-drained
<i>Lotus berthelotii</i>	Perennial; Parrot's Beak; Canary Is; 0.2m h x 1m w; Coral-red pea flowers. Soft, sprawling, hairy, silver branches & leaves. Good for a hanging basket; Flowers: Spring/Summer; Sun; Well-drained; Frost Tender
<i>Luculia gratissima</i>	Shrub; 4m h; Evergreen, large shrub with masses of glorious fragrant pink flowers. Prune after flowering; Flowers: Winter; Semi Shade; Well-drained; Frost Tender

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Luculia yunnanensis</i>	Shrub; China; 3.5m h; Evergreen. A winter-flowering species with long, tubular-shaped, white, flushed pink flower clusters, sweetly scented; Sun/Semi-shade; Well-drained
<i>Lycoris radiata</i>	Bulb; Red Spider Lily; Japan; 0.4m h x 0.1m w; Bright red to rose-red flowers with reflexed petals and conspicuous anthers on stout stem. White-striped, sage-green strap leaves follow. Keep wet when in flower; Flowers: Summer/Autumn; Sun
<i>Magnolia laevifolia</i> 'Scented Pearl'	Shrub; 2 - 3m h x 1 - 2m w; (syn. <i>Michelia yunnanensis</i> 'Scented Pearl') Hardy evergreen shrub with dark foliage. Scented creamy-white flowers. Good for hedging, screening or container planting; Flowers: Spring; Sun; Moist/Well-drained
<i>Mammillaria elongata</i>	Succulent; Gold Lace Cactus; Mexico; 0.15m h x 0.3m w; Densely packed long oval stems, covered with harmless yellow or brown spines. Small white or yellow funnel-shaped flowers form around the crown of each stem; Flowers: Spring; Sun; Well-drained
<i>Manfreda longiflora</i>	Succulent; Mexico, S Texas; Handsome stemless plant with dark green, long, strap-like leaves spotted brown, and minutely serrated. A single flower spike of 1-2m may occur, with single tubular white/pink flowers along the upper portion; Flowers: Summer; Sun; Well-drained; Adaptable; Drought Tolerant
<i>Metapanax delavayi</i>	Shrub; SW China, N Viet; 3 - 5m h; Evergreen, compact but bushy shrub. Leaves 3-5 foliate and up to 12cm long. Palmate leaves on long petioles from upright branches with terminal heads of greenish-yellow flowers; Flowers: Summer; Sun/Semi-shade
<i>Metrosideros operculata</i>	Shrub; New Caledonia; 1 - 3m h; Compact, evergreen shrub bearing clusters of brush-like, fragrant flowers in shades of red, pink or white; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Miscanthus sinensis</i> 'Variegatus'	Perennial; 1.5m h; Mound of arching variegated leaves; white and green striped, giving a silvery glow. Pale pink flower heads age to a creamy straw. Cut to the ground in late Winter; Flowers: Summer/Autumn; Sun; Well-drained
<i>Monstera adansonii</i>	Climber; C&S America; 1.5m h; Epiphyte. An eye-catching vine with heart-shaped holey leaves suitable for indoors in bright indirect light. Likes humidity. Rarely flowers indoors. Requires support or can be allowed to trail in a basket. Tip prune to keep bushy; Flowers: Spring; Semi Shade; Well-drained
<i>Narcissus x incomparabilis</i>	Bulb; A hybrid daffodil with showy flowers typically with a pale perianth and a deeper yellow to orange corona; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Nematanthus strigillosus</i>	Climber; Brazil; This epiphytic plant likes light and moisture. Good trailing from a hanging basket with a multitude of small, thick, shiny dark green leaves and red/orange/yellow flowers shaped like goldfish; Sun/Semi-shade; Moist
<i>Neomarica gracilis</i>	Rhizome; Walking iris; C & S America; 0.45 - 0.6m h; Forms clumps with strappy, arching leaves and beautiful, white, blue and brown iris-like flowers. Suitable for pots; Flowers: Spring/Summer; Semi Shade
<i>Neoregelia</i> 'Crouching Tiger'	Bromeliad; 0.6m h; Large bromeliad with strappy intensely red leaves; Shade; Well-drained
<i>Neoregelia</i> 'Hearts Blood'	Bromeliad; 0.45m h; Miniature hybrid. Delicate and pretty plant. At flowering the centre of the plant turns bright red, with speckles of blood red on surrounding foliage. Good in hanging baskets or on tree stumps. On the ground it will form a ground cover; Flowers: Spring; Shade; Well-drained
<i>Neoregelia</i> 'Red Planet Mercury'	Bromeliad; 0.3m h; Spectacular medium to large plant in a neat rosette, with green leaves, flushing red with yellow blotching, which deepens to red in the central leaves and turns even brighter red at flowering; Flowers: Spring; Shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Neoregelia 'Fireball' variegated</i>	Bromeliad; 0.3m h; Dwarf compact variegated plant growing to 15cm across. Red flush appears before small blue flowers emerge from the centre. Thrives best in bright indirect light. Hardy; Shade; Well-drained
<i>Neoregelia hybrid</i>	Bromeliad; Leaves form a dense, funnel-shaped, or rosette-shaped, toothed rosette; Semi Shade; Well-drained
<i>Neoregelia spectabilis</i>	Bromeliad; Fingernail Plant; Brazil; 0.5m h; Rosette of green leaves with a bright pink tip. Undersides are maroon with white cross bands; centre is red. Bracts of the inflorescence are red or purple, petals are violet-blue; Shade; Dry
<i>Neoregelia tigrina</i>	Bromeliad; Brazil; 0.15m h x 0.2m w; A miniature bromeliad with wide flaring yellow leaves marked with burgundy tiger markings, more on the outer leaves. Small purple flowers in centre of leaf cup. A good water-holding plant, that forms nice clumps in a hanging basket; Semi Shade; Moist/Well-drained
<i>Nerine bowdenii</i>	Bulb; S Africa; 0.2 - 0.4m h; Frilly, bright orange/pink blooms clustered on tall stems. Warm dry summers; Flowers: Autumn; Sun; Well-drained
<i>Nerine bowdenii 'Pink Triumph'</i>	Bulb; 0.45m h; Narrow, strap-shaped green leaves with attractive umbels of deep pink flowers; Flowers: Autumn; Sun/Semi-shade
<i>Nerine bowdenii (orange-flowered form)</i>	Bulb; 0.2 - 0.4m h; A bulbous perennial, with orange to orange-red flowers on leafless stems. Narrow, reflexed petals create a spider-like effect. Strap-like foliage emerges after flowering; Flowers: Autumn; Sun; Well-drained
<i>Nerine humilis</i>	Bulb; 0.15 - 0.3m h; A dainty dwarf nerine featuring clusters of rose-pink flowers with distinctively wavy-edged petals and dark central stripes. Strap-shaped leaves often appear after the flowers. Summer dormant; Flowers: Autumn; Sun; Well-drained
<i>Nidularium 'Leprosa'</i>	Bromeliad; 0.45m h; Hybrid cultivar. A large, compact well-shaped rosette with light green leaves, mottled dark green with some spotting at the base. At flowering the inner rosette is mauve; Shade; Well-drained
<i>Ophiopogon jaburan</i>	Perennial; Jaburan Lily; Japan; 0.6m h x 0.3m w; Strap-shaped, leathery, dark green leaves in clumps. Racemes of short, bell-shaped white to lilac tinted flowers, followed by violet-blue fruit. Grassy groundcover or border; Flowers: Summer; Sun/Semi-shade
<i>Origanum 'Kent Beauty'</i>	Perennial; 0.2m h x 0.3m w; Prostrate form. Small pink to mauve flowers and attractive pink bracts. Suitable for wall or ledge; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Origanum marjorana</i>	Herb; Sweet Marjoram; Mediterranean; 0.3m h x 0.3m w; Evergreen perennial with grey-green leaves, pink-white flowers. Has a sweeter flavour than oregano; Flowers: Summer; Sun; Well-drained
<i>Origanum vulgare 'Aureum'</i>	Herb; Golden Marjoram; Mediterranean; 0.3m h x 0.45m w; Woody based dense mat of aromatic, golden yellow young leaves turning pale yellow green in mid-Summer; Flowers: Summer/Autumn; Sun; Well-drained; Drought Tolerant
<i>Origanum vulgare 'Hot and Spicy'</i>	Herb; 0.5m h x 0.3m w; Dense, hairy grey-green leafed herb, with clusters of white flowers; Flowers: Summer/Autumn; Sun; Well-drained
<i>Osmanthus delavayi</i>	Shrub; Yunnan; 2.5m h x 3m w; Evergreen. Finely toothed, leathery, dark-green leaves. Masses of small, sweetly scented white flowers. Good for hedging; Flowers: Spring; Sun/Semi-shade
<i>Osmanthus heterophyllus 'Purpureus'</i>	Shrub; Japan, Taiwan; 3m h x 2m w; Evergreen, slow growing round bush with holly-like leaves. Small white fragrant flowers. New growth is deep purple; Flowers: Autumn; Sun; Well-drained
<i>Pachyphytum compactum</i>	Succulent; Mexico; 0.3m h x 0.15m w; A rosette-forming, ground hugging species with thick rounded heavily veined triangular, white frosted, green leaves, tipped with deep purple. Pale-yellow-pink-green flowers. Rare and exotic plant. Good indoors; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained

Plant Source:	Exotic
Genus/Species/Cultivar	Notes
<i>Pachyphytum glutinicaule</i>	Succulent; 0.15 - 0.3m h; Smooth textured succulent with silver-grey to blue-green leaves, like sugared almonds. Short, stumpy stems have a white coating. Good in containers; Flowers: Winter; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Pachyphytum rzedowskii</i>	Succulent; Mexico; 0.1 - 0.25m h; Compact mound of soft, bluish-grey, bulbous leaves with pink tones. The graceful flowers are greenish-white on long stalks. Best in morning sun; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Pachystegia insignis</i>	Shrub; Marlborough Rock Daisy; NZ; 0.5 - 1m h x 0.5 - 1m w; (syn. <i>Olearia insignis</i>). Felted, grey-green to silvery-green foliage and stems with abundant large white, daisy-flowers surrounding prominent yellow centres; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Parochetus communis</i>	Perennial; C Africa, Asia; 0.05m h; Low creeping clover-like plant. Vivid deep blue pea-shaped flowers. Moist sheltered position. Good for hanging baskets; Flowers: Spring
<i>Pelargonium 'Candy Dancer'</i>	Perennial; 0.6m h; Light mauve-pink flowers. Rose-petal scented, deeply cut, small leaves. Prune early Autumn or early Spring; Sun; Well-drained
<i>Pelargonium 'Madame Salleron'</i>	Perennial; 0.4m h x 0.4m w; A compact, bushy plant with long-stalked, kidney-shaped, white-edged leaves. Rarely flowers. Suitable for window boxes or indoor pots; Sun/Semi-shade; Well-drained
<i>Pelargonium crispum</i>	Herb; Lemon Geranium; S Africa; 0.6m h; A compact, upright shrub with crinkled, lemon-scented leaves and delicate pink flowers. Well-suited for containers and garden edges; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Penstemon 'Alice Hindley'</i>	Perennial; 0.9m h x 0.5m w; Stems of pale lilac-blue tubular bells, white inside, tinged mauve-pink outside; Flowers: Summer/Autumn; Sun; Moist/Well-drained
<i>Penstemon 'Countess of Dalkeith'</i>	Perennial; 0.45 - 0.75m h x 0.45 - 0.6m w; A plant with panicles of large, purple, foxglove-like flowers with spotted white throats; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Penstemon 'Hidcote Pink'</i>	Perennial; 0.6 - 0.9m h x 0.6 - 0.9m w; Profuse, bell-shaped, rose-pink flowers, streaked with dark pink on creamy-white throats; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained
<i>Penstemon 'Midnight'</i>	Perennial; 0.9m h x 0.5m w; Stunning cultivar with deeply coloured flowers showing shades of dark purple; Flowers: Summer/Autumn; Sun; Well-drained; Drought Tolerant
<i>Penstemon 'Sour Grapes'</i>	Perennial; 0.7m h x 0.6m w; Mauve-lilac bell-shaped blooms with white streaked throats. Prune old growth in early Spring; Flowers: Spring/Autumn; Sun; Well-drained
<i>Penstemon 'Thorn'</i>	Perennial; 0.7m h; Sumptuous apple blossom pink bell flowers along upright stems; Flowers: Summer/Autumn; Sun; Well-drained
<i>Penstemon 'White Bedder'</i>	Perennial; 0.6m h x 0.45m w; Popular old cultivar bearing large, bell-shaped, white flowers from pink flushed buds; Flowers: Summer/Autumn; Sun; Well-drained
<i>Peperomia magnoliifolia</i>	Perennial; C & S America; 0.15 - 0.3m h; Excellent indoor plant with thick, glossy, spoon-shaped leaves. Best in indirect light and avoid over watering; Semi Shade; Well-drained
<i>Peperomia sp.</i>	Perennial; 0.2 - 0.3m h; Shiny, thick, obovate, slightly cupped leaves. Suitable for containers in bright indirect sunlight; Semi Shade; Well-drained; Drought Tolerant; Frost Tender
<i>Phaseolus caracalla</i>	Climber; Snail Creeper; 5m h; Deciduous vine that requires support. Very fragrant, purple/white/cream flowers, coiled like snails. Heart-shaped leaves; Flowers: Summer/Autumn; Sun/Semi-shade

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Philadelphus 'Natchez'</i>	Shrub; Mock Orange; 2.4 - 3m h x 2.4 - 3m w; Deciduous. Large white flowers on long stalks. Need to cut back after flowering; Flowers: Spring/Summer; Sun; Moist/Well-drained
<i>Philadelphus coronarius 'Aureus'</i>	Shrub; Golden Mock Orange; S Europe; 2.5m h x 1.5m w; Deciduous. Golden yellow leaves turn yellow-green in Summer. Cup-shaped, single, very fragrant, creamy white flowers; Flowers: Spring; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Philadelphus inodorus var. grandiflorus</i>	Shrub; Scentless Mock Orange; N America; 2 - 3m h; A deciduous plant with multiple erect branches that gracefully arch over time. Clusters of cup-shaped, pure white flowers contrast with the dark green foliage; Flowers: Spring/Summer; Sun/Semi-shade; Adaptable
<i>Phlebodium aureum</i>	Fern; Rabbits Foot Fern; S Americas; 1m h; Epiphytic fern with elongated fronds and a pleasant blue-green colour. Good indoors as it tolerates low light conditions; Shade; Moist/Well-drained
<i>Phlomis longifolia</i>	Perennial; E Mediterranean; 0.6m h; Evergreen with felted, green, crinkled leaves and whorls of golden-yellow flowers. Attracts bees; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Phlomis russeliana</i>	Perennial; Turkey, Syria; 0.9m h x 1.2m w; Evergreen. Aromatic, heart-shaped grey-green leaves. Pale yellow hooded flowers rise well above the basal foliage. Good in hot dry areas; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Phygelius aequalis 'Funfair Wine'</i>	Perennial; 0.6 - 0.6m h; Attractive, compact variety with arching stems and magenta red, tubular flowers. Suitable as a cut flower. May become herbaceous with heavy frosts; Flowers: Summer/Autumn; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Phymosia umbellata</i>	Shrub; Mexico; 4 - 6m h x 3m w; Rare, evergreen shrub with large, maple-like, downy leaves and clusters of crimson, cup-shaped flowers. Tolerates light frosts and suits a partly sheltered spot. Long flowering; Flowers: Winter/Spring; Sun/Semi-shade; Drought Tolerant
<i>Pieris formosa 'Wakehurst'</i>	Shrub; Asia; 2 - 4m h; Compact, evergreen shrub with leathery, dark-green leaves and small white, urn-shaped flowers in panicles. Young leaves are bright red; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Pilea peperomioides</i>	Perennial; Chinese Money Plant; Yunnan; 0.3m h; Very attractive evergreen houseplant, with round, dark green leaves. The leaf blade surrounds the stem. Sprays of tiny white flowers. Requires indirect light and good drainage; Semi Shade
<i>Pittosporum tobira 'Miss Muffet'</i>	Shrub; 1m h x 1.5m w; Dwarf variety with dark, glossy, green oval leaves and small cream, fragrant flowers. Ideal for low hedging, borders, containers, and formal gardens. Can be trimmed to maintain shape; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Plectranthus coleoides 'Nicoletta'</i>	Perennial; 0.2 - 0.4m h x 0.6 - 1m w; An evergreen perennial prized for its velvety, silver grey foliage. The semi-trailing plant features large scalloped leaves and contrasting purple stems, making it ideal for hanging baskets or groundcover; Flowers: Autumn/Winter; Sun/Semi-shade; Well-drained; Frost Tender
<i>Pleione formosana</i>	Orchid; Himalayan Orchid; E China; 0.15m h; Soft mauve petals, frilled white and yellow trumpet. Keep moist in summer, dry in winter. A delicate, stunning species for collectors; Flowers: Spring; Semi Shade; Well-drained
<i>Podranea ricasoliana</i>	Climber; Pink Trumpet Vine; S Africa; 5 - 10m h; A showy, rambling, evergreen climber with glossy, green leaves and fragrant, lilac-pink trumpet-shaped flowers. Prune after flowering and protect roots from the hot sun. Frost tolerant to -7 deg; Flowers: Spring/Summer; Sun; Well-drained
<i>Polygonatum falcatum</i>	Perennial; Solomon's Seal; Japan, Korea; 0.5m h; Graceful arching branches of bell-shaped green-tipped cream flowers hanging beneath the leaves. Berries follow; Flowers: Spring; Semi Shade; Well-drained

Plant Source: Exotic

Genus/Species/Cultivar Notes

<i>Polyspora axillaris</i>	Tree; Fried Egg Plant; SE Asia; 5 - 8m h; (syn. <i>Gordonia</i> a.) Tall evergreen shrub with orange-brown, dappled bark. Dark green glossy leaves and large white flowers with crumpled petals and golden stamens; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained
<i>Portulacaria afra</i> 'Variegata'	Succulent; Elephant Bush; S Africa; 2m h; Evergreen with reddish purple branches and green leaves edged in cream. Clusters of tiny pale-pink flowers; Flowers: Summer; Sun; Dry; Drought Tolerant; Frost Tender
<i>Protea neriifolia</i> 'Frosted Fire'	Shrub; 2m h x 2m w; A striking evergreen shrub producing large, goblet-shaped flower heads with deep red bracts edged in a white and black velvety fringe. Drought tolerant once established, it attracts birds and makes an exceptional long-lasting cut flower; Flowers: Winter; Sun; Well-drained; Acidic
<i>Quesnelia arvensis</i>	Bromeliad; Brazil; 0.6m h x 0.3m w; Stiff, spiky, dark-green leaves lightly banded with silver. Deep pink flower heads produce numerous violet petals; Flowers: Spring/Summer; Semi Shade; Dry; Frost Tender
<i>Reineckea carnea</i>	Perennial; China, Japan; 0.2m h x 0.3m w; Prostrate, clump forming, dark glossy green strap leaves. Flowers fragrant, very like Muscari, pale to fleshy pink. Produces scarlet berry fruit. Excellent under deciduous trees; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Rhinacanthus beesianus</i>	Shrub; Yunnan; 2m h; Quite a tall shrub with large attractive glossy quilted leaves. Clear white scented flowers, shaped like scalloped shells. Prune after flowering; Flowers: Summer/Autumn; Semi Shade; Well-drained
<i>Rhipsalis campos-portoana</i>	Succulent; Mistletoe Cactus; Brazil; 0.15 - 0.3m h; A slender epiphytic cactus with thin, pendulous, cylindrical stems that branch freely, forming a delicate, cascading habit. Small, white to pale green flowers appear along the stems, followed by tiny, translucent berries. Ideal for hanging baskets; Semi Shade; Well-drained; Frost Tender
<i>Rhodanthemum</i> 'African Eyes'	Perennial; 0.2 - 0.3m h; A compact, spreading perennial with striking white daisy-like flowers featuring dark purple-black centres. Its finely divided, silvery-grey foliage forms a low, neat mound, making it ideal for borders, rockeries and containers; Flowers: Spring to Autumn; Sun; Well-drained; Drought Tolerant
<i>Rhodanthemum catananche</i> 'Tizi-n-Test'	Perennial; 0.15m h x 0.4m w; Beautiful little plant from the High Atlas Mountains. Tough, drought and frost tolerant, long flowering. Large white daisies red-tinged at the base. Flowers are 10cm above low evergreen domes of silver-grey, dissected foliage. Good for edging raised beds; Flowers: Spring/Summer; Sun; Well-drained
<i>Rhododendron macrosepalum linearifolium</i>	Rhododendron; Japan; 0.6m h; Very compact plant with long lasting, spider-like pink flowers, and unusual feathery grey-green foliage; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Bold Janus'	Rhododendron; 2m h x 1m w; Strong tall plant with dark foliage and apricot flushed with pink flowers; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Bonza'	Rhododendron; 1.5m h; Bushy shrub with lovely bronze foliage on new growth. Bright ruby red flowers; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Bush Baby'	Rhododendron; Very low growing, with bright red flowers. Performs well in large containers; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Carillon Bells'	Rhododendron; Small compact shrub, hybridised by R.M. Withers. Trusses of 2-3 tubular deep pink flowers with a pale pink throat; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Charming Valentino'	Rhododendron; Compact shrub (less than 1m) with rich pink medium-sized flowers, up to six flared bells per umbel. Light green leaves; Semi Shade; Moist/Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Rhododendron (vireya)</i> 'Christie'	Rhododendron; 2m h; Bushy green foliage with cherry-red medium sized trusses of 5 to 7 tubular shaped blooms. Repeat flowering; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Clare Crouch'	Rhododendron; Medium sized shrub with largish pale pink flowers, 5 or more to a head, and mid green leaves. Long flowering; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Coral Flare'	Rhododendron; 1m h x 1m w; Medium sized shrub with a spreading habit. Coral pink medium sized flowers, 3-7 in a truss. Suitable for hanging baskets when young; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Golden Charm'	Rhododendron; 0.75m h; (R. Macgregoriae x R. 'Princess Alexandra') Large trusses of apricot and gold flowers. Glossy leaves, tinged bronze, stems tinged brown; Semi Shade; Well-drained
<i>Rhododendron (vireya)</i> 'Great Scent-sation'	Rhododendron; 1m h; Medium shrub with trusses of 6-10 large fragrant dark pink flowers; Sun/Semi-shade; Well-drained
<i>Rhododendron (vireya)</i> 'Highland White Jade'	Rhododendron; 1.5m h x 1.75m w; Cream tubular flowers with slight perfume; Flowers: Winter/Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Irian Jaya'	Rhododendron; 1.8m h; Tall shrub with deep pink, tubular, funnel-shaped flowers in trusses of 11-12; Semi Shade; Moist/Well-drained; Acidic
<i>Rhododendron (vireya)</i> 'La-de-da'	Rhododendron; 1m h; Compact shrub with clusters of pale pink flowers; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Liberty Bar'	Rhododendron; (R. viriosum x R. aurigeranum) Tubular brick-red flowers; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Magenta'	Rhododendron; 1m h; A hardy, bushy, sun-tolerant vireya with masses of perfumed magenta flowers. Reflowers in Autumn; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Rhododendron (vireya)</i> 'Misty'	Rhododendron; 1.5m h; A medium sized bushy shrub, bearing bright-pink flowers with white throats; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Mrs Elizabeth Miller'	Rhododendron; 1.2m h; Medium sized shrub. Soft pink flowers with a strong perfume. 6-10 flowers in each truss; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Niugini Firebird'	Rhododendron; 0.6m h; (R. laetum x R. javanicum) Tubular, funnel-shaped vibrant orange flowers, 8-10 trusses; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Pennywhistle'	Rhododendron; 0.6m h; Upright miniature with tubular, funnel-shaped orange flowers. Ideal for small containers; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Popcorn'	Rhododendron; 1m h x 0.75m w; Soft off-white flowers on lime green petioles, up to 11 per truss, in numerous compact clusters. Bright light green smallish leaves; Flowers: Winter/Spring; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Red Mountain'	Rhododendron; 1m h x 1m w; Compact shrub with rounded habit, mid-green leaves, and bright scarlet-red small blooms (6-7 per bunch) flowering year-round; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Sarah Ormiston'	Rhododendron; Trusses of mauve-pink blooms; Sun/Semi-shade; Well-drained
<i>Rhododendron (vireya)</i> 'Simbu Sunset'	Rhododendron; Large tubular flowers with soft-yellow throats, shading to brilliant orange-yellow at the outer edge. Deep red stems in first year; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Star Shower'	Rhododendron; 1.5m h; Dense rounded head of small, vivid yellow flowers on burgundy stems. Flowers are short bells with flared corollas and burgundy anthers. Mid-green foliage; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya)</i> 'Sunny'	Rhododendron; 2m h; Cheerful yellow mid-sized flowers; Sun/Semi-shade; Moist/Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Rhododendron (vireya) 'Teddy's Best'</i>	Rhododendron; 1.4m h x 1m w; Many brilliant yellow flowered heads; Flowers: Winter/Spring; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya) 'Tropic Tango'</i>	Rhododendron; 1.5 - 2m h; Strong orange-yellow flowers; Sun; Moist/Well-drained
<i>Rhododendron (vireya) 'Vicky Griffith'</i>	Rhododendron; Mid-size, compact shrub with trusses of perfumed pure white blooms and dark green leaves; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya) christi hybrid</i>	Rhododendron; Medium sized shrub; mid-green rounded leaves, bronze new foliage. Striking flowers have red lips and yellowish green tubes, midsize, 5-6 flowers per stem; Flowers: Summer; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya) christianae 'Grandiflora'</i>	Rhododendron; A medium compact shrub. Flowers are yellow shading to orange at the edges. Striking black stamen; Flowers: Spring; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya) commonae x Simbu Sunset</i>	Rhododendron; Orange flowers; Semi Shade; Well-drained
<i>Rhododendron (vireya) hellwigii x laetum x aurigeranum</i>	Rhododendron; 2m h; Upright plant with dark green foliage and intense red flowers; Sun/Semi-shade; Well-drained; Acidic
<i>Rhododendron (vireya) javanicum</i>	Rhododendron; Indonesia, Malaysia; 2m h x 1m w; Tall shrub with funnel-shaped vivid orange flowers and purple stamens. Large flowers (up to 6cm), with up to 12 per umbel; Flowers: Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Rhododendron (vireya) kochii</i>	Rhododendron; Philippines; An evergreen shrub with glossy, elliptic leaves growing to 10m and umbels of elegant, pure-white tubular flowers; Semi Shade; Well-drained
<i>Rhododendron (vireya) konori</i>	Rhododendron; 1.5m h x 1.5m w; Loose trusses of large carnation scented, funnel-shaped, white or white flushed-pink flowers appear at any time of year; Semi Shade; Well-drained
<i>Rhododendron (vireya) laetum</i>	Rhododendron; New Guinea; 1 - 2m h x 1.2m w; Species vireya. Large, broadly funnel-shaped flowers of brilliant glowing yellow in trusses of 6-8, sometimes more than once a year. Best of all yellow flowering vireyas; Sun; Well-drained
<i>Rhododendron (vireya) laetum hybrid</i>	Rhododendron; 1.5m h; Large, funnel-shaped flowers of yellow with intense darker tips, in trusses of 6-8. May flower more than once a year; Flowers: Autumn; Semi Shade; Moist/Well-drained
<i>Rhododendron (vireya) laetum x christianae</i>	Rhododendron; Tubular flowers with orange petals and yellow centres; Semi Shade; Well-drained
<i>Rhododendron (vireya) loranthiflorum 'Sri Chinmoy'</i>	Rhododendron; PNG; Highly floriferous dense shrub with 8-9 white flowers in each truss; Flowers: Spring to Autumn; Sun/Semi-shade; Moist/Well-drained; Acidic
<i>Rhododendron (vireya) luraluense x inundatum</i>	Rhododendron; Small shrub with mid-green foliage and perfumed white flowers; Semi Shade; Well-drained
<i>Rhododendron (vireya) macgregoriae x viriosum</i>	Rhododendron; 1m h; Spectacular tubular flowers, salmon outer petals fading to soft cream tubes. 5-8 flowers per truss; Semi Shade; Well-drained
<i>Rhododendron (vireya) superbum</i>	Rhododendron; 1m h x 1m w; Glorious large fragrant cream flowers, flushed with pink, 3-5 per umbel; Semi Shade; Well-drained
<i>Rhododendron (vireya) viriosum</i>	Rhododendron; N Qld; 1.5m h; Bright red waxy mid-size bells, approx. 6 per truss. Rich green foliage. Lovely Australian native shrub (Formerly R. lochiaie); Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Rhododendron (vireya) viriosum hybrid</i>	Rhododendron; Mid-sized shrub with mid-green leaves and trusses of small brick-red flowers with burgundy stems; Sun/Semi-shade; Well-drained; Acidic
<i>Rhododendron (vireya) viriosum x macgregoriae</i>	Rhododendron; Flowers have orange petals fading to yellow tubes. (Previously called Rh (v) lochiaie x macgregoriae); Sun/Semi-shade; Well-drained

Genus/Species/Cultivar

Notes

<i>Rhodophiala araucana</i>	Perennial; S America; Herbaceous. Strappy leaves with trumpet-shaped flowers, in shades of red, pink or yellow. Keep dry during winter. Rare; Flowers: Spring/Summer; Sun
<i>Rondeletia amoena</i>	Shrub; C America; 3m h x 2m w; (syn. <i>Rogiera amoena</i>) Evergreen. Dense clusters of tubular salmon-pink fragrant flowers. Handsome, leathery leaves, bronze when young. Protected position; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Frost Tender
<i>Rosmarinus officinalis 'Boule'</i>	Herb; 0.6m h x 0.6m w; Typical rosemary plant. It grows in a tight dense mound of grey-green narrow leaves with medium blue flowers. Good in pots; Flowers: Winter; Sun; Well-drained; Drought Tolerant
<i>Rosmarinus officinalis 'Prostratus'</i>	Herb; Prostrate Rosemary; 0.15m h; Low growing evergreen variety with small needle-like aromatic leaves and tiny pale-blue flowers. Suitable to spill down a wall or out of a pot; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Rosmarinus officinalis 'Rosea'</i>	Herb; 1m h x 1m w; Evergreen shrub with dusty pale pink flowers and aromatic foliage. Good for culinary use and for hedging. Prune after flowering; Flowers: Spring/Summer; Sun; Well-drained
<i>Rosmarinus officinalis 'Salem'</i>	Herb; 1m h x 1m w; Medium shrub with an erect, rounded habit, needle-like foliage, and pale blue flowers year-round; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Rothmannia globosa</i>	Tree; Tree Gardenia; S Africa; 3 - 4m h x 2 - 3.5m w; Small evergreen tree with white to ivory, narrow, bell-shaped, strongly scented flowers. Dark green leaves with pale veins. Requires a sheltered position; Flowers: Spring/Summer; Sun; Moist/Well-drained; Acidic; Frost Tender
<i>Rudbeckia nitida 'Herbstsonne'</i>	Perennial; 1 - 2m h; Herbaceous. Golden daisy-like flowers with a central green knob. Prefers moderately fertile, heavy but well-drained soil- avoid letting it dry out; Flowers: Summer/Autumn; Sun
<i>Ruta graveolens 'Jackman's Blue'</i>	Herb; Rue; 0.5m h x 0.5m w; Pungent perennial shrub with attractive blue/grey leaves, and small greenish yellow flowers. Cut back after flowering. Drought tolerant but less than <i>Ruta graveolens</i> ; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Salvia 'Angel Wings'</i>	Perennial; 0.6m h; Attractive, long flowering microphylla-type with two-toned, soft pink flowers and dark green-purple calyces. Prune after flowering; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Salvia 'Celestial Blue'</i>	Perennial; 0.9 - 1m h; Hardy, tough, small bushy plant with grey-green aromatic leaves and whorls of sky-blue flowers. Prune after flowering; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Salvia 'Envy'</i>	Perennial; 1m h; Mid-green leaves with long, tubular, dark wine-coloured flowers; Flowers: Spring to Autumn; Sun
<i>Salvia 'Magenta Magic'</i>	Perennial; 0.9m h x 0.8m w; Shiny, deep green foliage with tall, intense magenta flowers on tall spikes; Flowers: Spring to Autumn; Sun/Semi-shade; Well-drained
<i>Salvia 'Meigan's Magic'</i>	Perennial; 0.8m h x 0.7m w; Fragrant white flowers, enveloped by a purple calyx, and grey-green foliage; Flowers: Spring to Autumn; Semi Shade; Well-drained; Drought Tolerant
<i>Salvia 'Midnight'</i>	Perennial; 0.4 - 0.6m h; A greggii cultivar with dark crimson flowers; Well-drained
<i>Salvia 'Timboon'</i>	Perennial; 1.5 - 2m h; Upright plant with large clusters of deep crimson flowers. Tolerant of moderate frost; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Salvia chamaedryoides</i>	Perennial; Texas, Mexico; 0.5m h x 0.6m w; Violet-blue flowers; low growing; suitable for rockery or front border. Soft grey foliage. Tolerates light frost. Prune after flowering. Neutral to alkaline soils; Flowers: Summer; Sun; Well-drained; Drought Tolerant

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Salvia confertiflora</i>	Perennial; Brazil; 1.5m h; Herbaceous perennial bearing velvety orange-red flower spikes on red stems above large crinkled leaves. Protected site. Light frost tolerance. Prune after flowering; Flowers: Autumn/Winter; Sun/Semi-shade
<i>Salvia discolor</i>	Perennial; Andean Sage; Peru; 0.5 - 1m h x 1m w; Purple/black flowers in green calyx. Underside of leaves and stems are silver. Neutral to alkaline soils; Semi Shade; Well-drained; Frost Tender
<i>Salvia fruticosa</i> 'Greek Skies'	Herb; Greek Sage; 1.2m h x 1m w; Soft sage-coloured hairy leaves, lavender scented. Mauve flowers. Neutral to alkaline soils; Flowers: Spring/Summer; Sun; Well-drained
<i>Salvia greggii</i> 'Navajo Cream'	Perennial; 0.6 - 0.8m h; A compact evergreen plant with small, aromatic ovate leaves and creamy white flowers. Ideal for borders, cottage gardens and containers; Flowers: Spring to Autumn; Sun; Well-drained
<i>Salvia involucrata</i> 'Mulberry Jam'	Perennial; Dark fuchsia-pink tubular flowers, in large clusters, on dark green leafy stems, up to 90cm high. Stems turn deep purple in Winter; Flowers: Summer/Autumn; Sun; Moist/Well-drained
<i>Salvia lanceolata</i>	Perennial; S Africa; 1m h x 1m w; Much branched shrubby plant, with evergreen, thick textured dove grey leaves. Unusual dull rose-pink flowers; Flowers: Winter/Spring; Sun; Well-drained
<i>Salvia mexicana</i> 'Costa Rican Blue'	Perennial; Mexican Sage; 1 - 3m h x 1 - 1.3m w; Blue to violet or purple flowers. Prune in Spring; Flowers: Winter; Sun; Well-drained; Frost Tender
<i>Salvia microphylla</i> 'Huntingdon'	Perennial; 0.9m h x 0.9m w; Shrubby perennial. Brilliant scarlet red flowers. Remarkable mahogany stems, striped greyish white. Neutral to alkaline soils; Flowers: Summer/Autumn; Sun; Well-drained
<i>Salvia microphylla</i> (deep pink)	Perennial; Mexico; 0.5m h x 0.5m w; Small rounded ornamental shrub with small grey-green leaves and tiny deep pink flowers for most of the year; Sun; Well-drained
<i>Salvia officinalis</i> 'Berggarten'	Herb; Sage; 0.6m h x 0.75m w; Broad and low, leaves very wide, blue flowers. Neutral to alkaline soils; Sun; Well-drained
<i>Salvia oxyphora</i>	Perennial; Bolivia; 1.2 - 1.5m h; Stunning salvia with large, furry, bright pink flowers and glossy green leaves; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Salvia sagittata</i>	Perennial; Mexico S America; 0.9m h x 0.6m w; Herbaceous plant with arrow-shaped leaves, black wiry stems and attractive royal blue flowers. Prefers a protected position. Prune after flowering. Frost tolerant; Flowers: Summer/Autumn; Semi Shade; Well-drained
<i>Salvia semiatrata</i>	Perennial; Mexico; 2m h x 1m w; A woody shrubby plant with small pale green rugose leaves. Flowers are lavender with a dark violet blotch on the lower lip; Flowers: Summer/Autumn; Sun/Semi-shade; Adaptable
<i>Salvia sprucei</i>	Perennial; Ecuador; 1.8m h x 1.5m w; Tall, open shrubby plant. Flowers are bright magenta, with a touch of white at the throat. Likes cool roots, out of wind. Good for back of border; Flowers: Winter/Spring; Sun/Semi-shade; Well-drained
<i>Salvia virgata</i>	Perennial; Asia, SE Europe; 1m h; Herbaceous plant forming a basal rosette with tall spikes of violet-blue flowers; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Sambucus nigra</i> 'Marginata'	Shrub; Black Elder; Europe & W Asia; 2 - 4m h x 2m w; Vigorous upright, erect deciduous shrub with dark green ferny, pinnate leaves with yellow margins that fade to white. Large clusters of scented white flowers; Flowers: Spring/Summer; Sun; Moist
<i>Sarracenia alata</i>	Perennial; Pale Trumpet; Texas; 0.6m h; Carnivorous plant. Pitchers are trumpet shaped, light green with vertical red veins. Cream-yellow to white flowers, 6.5cm across. No fertilizer. Peat moss. Keep very wet. Can be very invasive; Flowers: Spring; Sun; Frost Tender

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Sarracenia leucophylla</i>	Perennial; White Trumpet; USA; 1m h; Carnivorous plant. Slender erect pitchers, green below, changing to white at the tops, netted with green, maroon or red veins. Flowers are deep red or yellow. Full sun and keep permanently wet. Do not feed. Grow in a mix of peat moss and sharp sand; Flowers: Spring/Summer; Boggy
<i>Sarracenia oreophila</i>	Perennial; Pitcher Plant; Alabama, Georgia; 0.6m h; Carnivorous plant. Yellow-green flowers. Lime green pitchers veined red. Also has non-carnivorous leaves in winter. Very rare in the wild. Keep very wet; do not feed; Flowers: Spring; Sun; Boggy; Frost Tender
<i>Satureja montana</i>	Herb; Winter Savory; S Europe; 0.4m h x 0.1m w; Semi-evergreen. Upright perennial herb. Aromatic leaves. Lilac flowers; Flowers: Summer; Sun; Adaptable; Drought Tolerant
<i>Satureja montana 'Procumbens'</i>	Herb; Winter Savory; 0.1m h x 0.4m w; Creeping, mat-forming perennial herb with bright green leaves and white flowers. Excellent for rockeries. Attracts bees; Flowers: Summer/Autumn; Sun; Adaptable; Drought Tolerant
<i>Schlumbergera orssichiana</i>	Succulent; Brazil; An epiphytic cactus known for its large, tubular flowers and flattened, scalloped stem segments. Best grown in hanging baskets or raised pots to show off its cascading form and showy blooms that can range from white, rose, red or purple; Flowers: Winter; Semi Shade; Well-drained
<i>Sedum adolphi</i>	Succulent; Mexico; 0.2m h; Gold leaves may be brown tipped. Masses of white star-shaped flowers; Flowers: Spring; Sun; Well-drained; Drought Tolerant
<i>Sedum clavatum</i>	Succulent; Stonecrop; Stout, long, bare creeping stems end in blue-green rosettes of succulent leaves. Clusters of small white star flowers; Flowers: Spring/Summer; Sun; Well-drained; Adaptable; Drought Tolerant
<i>Sedum dasphyllum</i>	Succulent; Thick-leaved Stonecrop; Europe, N Africa; A hardy, low-growing mat-forming succulent, featuring tiny, powdery blue-green, fleshy leaves that turn lavender in sun. The flowers are white and star-shaped. Perfect for rock gardens or containers; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Sedum pachyphyllum</i>	Succulent; Mexico; Cylindrical blue-green leaves may be red tipped in cold weather. Yellow flowers in Spring; Sun; Well-drained; Drought Tolerant
<i>Sedum sieboldii</i>	Succulent; (syn. Hylotelephium sieboldii) Grey-blue leaved species with spreading habit. Ideal for hanging baskets. Develops pink margins with shallow scallops on leaves. Pink star flowers; Flowers: Autumn; Sun; Well-drained
<i>Senecio 'Elkhorns'</i>	Succulent; Upright silver-grey leaves like chalk sticks; Sun/Semi-shade; Well-drained
<i>Senecio barbertonicus</i>	Succulent; S Africa; 0.5 - 1.8m h; Luminous lime green needle-like foliage. Fragrant yellow flowers from Winter to Spring; Sun; Well-drained
<i>Senecio cineraria 'Cirrus'</i>	Perennial; 1m h x 0.9m w; Small evergreen plant with silver-white felted leaves. Small yellow flowers. Good bedding plant; Sun; Drought Tolerant
<i>Senecio radicans</i>	Succulent; String of Bananas; S Africa; 0.5m h; Mat forming with prostrate, rooting stems and cylindrical, straight or slightly curved fleshy glaucous, mid-green leaves to 2.5cm long, each with a darker stripe down the middle. Solitary white flowers borne sporadically throughout the year; Semi Shade; Dry; Drought Tolerant; Frost Tender
<i>Senecio serpens</i>	Succulent; Dwarf Blue Chalk Sticks; S Africa; 0.3m h x 0.3m w; (syn. Curio repens) Low-growing spreading succulent with blue-grey cylindrical leaves and small white flowers. It adds striking colour contrast and is ideal as a groundcover, border edging, or container plant; Flowers: Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Spathiphyllum sp. aff. wallisii</i>	Perennial; Peace Lily; 0.3 - 0.5m h; An excellent, evergreen, indoor plant known for its air-purifying qualities and elegant white spathes. It thrives in bright indirect light; Flowers: Spring/Summer; Semi Shade; Moist/Well-drained

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Spiraea blumei</i>	Shrub; Japan, Korea; 1.5m h; Semi-evergreen. Leaves pale blue-green veined underneath. Masses of white flowers in Spring; Sun; Well-drained; Drought Tolerant
<i>Spiraea japonica</i> 'Anthony Waterer'	Shrub; Japanese Spiraea; 0.6 - 1m h x 0.6 - 1m w; (S. x bumalda) Upright, semi-deciduous shrub with lanceolate leaves, sometimes variegated, and domed clusters of deep rosy-pink flowers; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained
<i>Spiraea x bumalda</i> 'Dolchica'	Shrub; 0.6 - 0.9m h; Semi-evergreen. Attractive, serrated, lime-green leaves that darken then turn yellow, orange and red in autumn. The flat-topped flower clusters are deep pink; Flowers: Spring/Summer; Sun; Well-drained
<i>Sprekelia formosissima</i>	Bulb; Jacobean Lily; Mexico/Guatemala; 0.3m h; Unusual, deep crimson iridescent solitary flower on erect stem, blooming in late spring. Rich, well composted soil; Sun; Well-drained; Drought Tolerant
<i>Staphylea colchica</i>	Shrub; Bladder Nut; S Caucasus; 3.5m h x 3.5m w; Deciduous. Fragrant white flowers followed by clusters of fruit shaped like a bladder; Flowers: Spring; Sun/Semi-shade; Moist/Well-drained
<i>Streptocarpus caulescens</i>	Perennial; Nodding Violet; Tanzania, Kenya; 0.1 - 0.3m h x 0.1 - 0.3m w; Fleshy perennial with soft, hairy leaves, bears tubular blue-mauve flowers throughout the year. Requires a protected position. Good for hanging baskets and indoors; Semi Shade; Well-drained; Frost Tender
<i>Streptocarpus hybrid</i> (blue)	Perennial; Cape Primrose; 0.2m h x 0.2m w; Rosette of furry leaves with clusters of tubular blue flowers with a darker veined centre. Suitable for pots in indirect bright light. Drought tender; Flowers: Spring to Autumn; Semi Shade; Moist/Well-drained; Frost Tender
<i>Streptocarpus hybrid</i> (magenta)	Perennial; Cape Primrose; 0.2m h x 0.2m w; Tubular magenta flowers. Suitable for pots in bright indirect light; Flowers: Spring to Autumn; Semi Shade; Moist/Well-drained; Frost Tender
<i>Streptosolen jamesonii</i>	Shrub; Marmalade Bush; S America; 2m h x 1.2m w; Evergreen. Oval, finely corrugated leaves. Clusters of bright orange and yellow flowers; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant; Frost Tender
<i>Syringa meyeri</i> 'Palibin'	Shrub; Lilac; N China; 1 - 1.5m h x 1.5m w; Deciduous. Compact, slow growing. Dense panicles of fragrant, purple buds fade to single rose-pink flowers on opening; Flowers: Spring/Summer; Sun/Semi-shade; Moist/Well-drained
<i>Teucrium betonicum</i>	Shrub; Madeira; 0.9m h; Evergreen. Clouds of mauve, tubular flowers on erect spikes. Long, pale-green, woolly leaves. Frost tolerant; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Teucrium fruticans</i>	Shrub; Mediterranean; 1.5m h; Grey/green aromatic leaves; white underneath. Small, pretty, lavender/blue flowers. Excellent for a fast growing hedge. Prune to maintain a dense habit; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Teucrium heterophyllum</i>	Shrub; Canary Is, Madeira; 1m h; A hardy, evergreen shrub featuring striking silver-grey foliage and producing vibrant orange-red tubular flowers ageing to blood red; Flowers: Spring/Summer; Sun; Well-drained
<i>Teucrium marum</i>	Perennial; Cat Thyme; Spain; 0.3m h x 0.3m w; Rosy mauve flowers on one-sided spikes. Small scented grey foliage. Open position. Frost resistant. Favoured by cats; Flowers: Spring/Summer; Sun; Well-drained; Drought Tolerant
<i>Thuja plicata</i>	Tree; Western Red Cedar; NW N America; 10 - 20m h x 1.5m w; A large, long-lived conifer with reddish-brown fibrous bark, and aromatic, scale-like, dark green foliage that grow in flat sprays. Ideal for screening or windbreak and responds well to pruning; Sun/Semi-shade; Well-drained
<i>Thunbergia natalensis</i>	Shrub; S Africa; 0.8m h x 0.6m w; Herbaceous. Clumping form with sky-blue, trumpet-shaped flowers with yellow centres. Ideal for borders or underplanting. Attracts pollinators; Flowers: Summer; Sun/Semi-shade

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Thymus</i> 'Orange Spice'	Herb; (syn. T. 'Spicy Orange') Evergreen, dense, ground-covering, fragrant herb with mauve-pink flowers; Flowers: Spring/Summer; Sun; Well-drained
<i>Thymus</i> 'Westmoreland'	Herb; Turkey Thyme; 0.25m h; An Edna Walling favourite. Vigorous. Very fragrant green leaves. Lavender-pink flowers; Flowers: Spring; Sun; Well-drained
<i>Thymus serpyllum</i> 'Annie Hall'	Herb; 0.05 - 0.1m h; Prostrate mat with small, fragrant, narrow leaves and pale pink flowers. Suitable for between pavers, rockeries and borders. Prune after flowering to maintain compact growth; Flowers: Summer; Sun; Well-drained
<i>Thymus serpyllum</i> 'Minimus'	Herb; Creeping Small Leaf Thyme; N Europe; 0.05m h; Very flat growing, tiny green leaves with attractive pink flowers. Good for lawn substitute or grow between pavers; Flowers: Summer; Sun/Semi-shade; Dry; Drought Tolerant
<i>Thymus serpyllum</i> 'Pink Chintz'	Herb; Creeping Thyme; 0.05m h; Low growing carpet of aromatic, slightly woolly, tiny leaves and clusters of small blush-pink flowers. Loved by bees and butterflies; Flowers: Summer; Sun; Well-drained
<i>Thymus vulgaris</i> 'Jekka'	Herb; 0.1m h x 0.5m w; Pale purple-pink flowering thyme, bred by Jekka McVicker. Cut back after flowering; Flowers: Spring/Summer; Sun; Well-drained
<i>Thymus x citriodorus</i>	Herb; Lemon Thyme; 0.15 - 0.3m h; Lemon scented, evergreen, small perennial plant. Low-spreading habit with lance-shaped dark green leaves. Clusters of lavender-pink flowers; Flowers: Summer; Sun; Well-drained; Drought Tolerant
<i>Thymus x citriodorus</i> 'Fragrantissimus'	Herb; Orange Thyme; 0.3m h; Upright, slender perennial. Leaves grey/green, orange-scented. Flowers pale pink on white. Ideal for troughs, paving, banks or rock gardens; Flowers: Summer; Sun; Moist/Well-drained
<i>Tibouchina hybrid</i> (blush white)	Shrub; 2 - 3m h; Evergreen shrub with ovate, leathery leaves. Saucer to cup-shaped white flowers, tinged pink; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained; Frost Tender
<i>Tibouchina multiflora</i>	Shrub; Brazil, Peru; 2m h x 2m w; Panicles of violet open flowers. Protected position. Drought tender; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained; Frost Tender
<i>Tibouchina urvilleana</i> 'Edwardsii'	Shrub; Lasiandra; 2m h; Compact slower growing cultivar of species, forming a well-branched shrub. Produces consistent open petalled, silky, deep violet flowers; Flowers: Summer/Autumn; Sun/Semi-shade; Moist/Well-drained
<i>Tillandsia kirchhoffiana</i>	Bromeliad; 1m h; Long, fine green leaves bearing red floral bracts and lavender diurnal flowers; Flowers: Summer; Semi Shade; Moist/Well-drained
<i>Tillandsia multicaulis</i>	Bromeliad; C America, Mexico; 0.4m h; This epiphytic species has medium green leaves arranged in rosettes. Multiple spikes produce orange bracts with purple petals and greenish-white sepals; Flowers: Spring/Summer; Semi Shade
<i>Tillandsia philippo-coburgii</i>	Bromeliad; Brazil; 0.4m h; (syn. <i>Vriesea philippo-coburgi</i>) Light, glossy green foliage with purple tips and a tall red and yellow flower spike 1-3m high; Flowers: Winter; Semi Shade
<i>Trachelospermum asiaticum</i>	Climber; Asia; Evergreen groundcover or climber, with dark glossy green leaves and fragrant yellow-white star-like flowers. Ideal for covering walls or fences. Hardy; Flowers: Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
<i>Trachelospermum jasminoides</i> (prostrate form)	Climber; China; Dark, shining green leaves, with crinkled edges. Small white flowers. A good, highly fragrant ground cover; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Tricyrtis</i> 'Empress'	Perennial; 0.6m h x 0.4m w; Speckled orchid-like flowers on upright stems. Glossy foliage. Excellent for shaded borders and woodland gardens; Flowers: Summer/Autumn; Semi Shade; Moist/Well-drained
<i>Veltheimia bracteata</i> (pale)	Bulb; S Africa; Dark shiny leaves to 45cm and pale apricot pink cylindrical flower heads; Flowers: Winter/Spring; Shade; Moist/Well-drained; Frost Tender

Plant Source: Exotic

Genus/Species/Cultivar

Notes

<i>Veronica bollonsii</i>	Shrub; NZ; 1.5m h; (syn. <i>Hebe bollonsii</i>) Evergreen bushy shrub with dark green, glossy to oblong leaves and spikes of tiny white to pale purple flowers up to 15cm long; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>Vitex agnus-castus</i>	Tree; Chaste Tree; S Europe, W Asia; 2 - 4m h x 3.5m w; A deciduous shrub or small tree with aromatic, grey-green, palmate leaves and a spreading habit. It produces long spikes of lilac to violet-blue flowers, attracting pollinators. Can be hard pruned late Winter; Flowers: Summer/Autumn; Sun; Well-drained; Drought Tolerant
<i>Vriesea 'Purple Cockatoo'</i>	Bromeliad; 0.3m h; (Hybrid cultivar of <i>V. barilletii</i> x <i>erythrodactylon</i>) Bright green leaves with a short-stemmed red splaying flower head; Flowers: Spring/Summer; Shade; Dry
<i>Vriesea 'Red Chestnut x Angela'</i>	Bromeliad; Stemless epiphyte, with strap-shaped leaves, a funnel-shaped rosette, and a highly coloured long lasting flower; Sun/Semi-shade; Well-drained
<i>Weigela (Lemoine hybrid, white)</i>	Shrub; 2m h x 2m w; Deciduous. White flowers. Prune out some old branches after flowering to maintain vigour. Rarely cultivated variety; Flowers: Spring; Sun; Moist/Well-drained
<i>Weigela florida 'Bristol Ruby'</i>	Shrub; 2 - 3m h x 1.5m w; Deciduous, medium rich-green shrub with erect, rounded habit and fragrant, tubular ruby-red, long-lasting flowers. Good for cutting; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>Weigela florida 'Variegata'</i>	Shrub; Korea/N China; 2m h x 2m w; Compact shrub with rose-coloured flowers and cream-edged leaves; Flowers: Spring/Summer; Sun; Well-drained
<i>Weigela subsessilis</i>	Shrub; Korea; 1.5m h x 1.5m w; Deciduous, bushy, dense plant. Funnel-shaped, yellow flowers sometimes flushed pink. Rare; Flowers: Spring; Sun/Semi-shade
<i>Woodwardia unigemmata</i>	Fern; Jewelled Chain Fern; E Asia; 1 - 2m h x 1 - 2m w; Evergreen fern with arching, finely dissected fronds. New growth emerges coppery-red, eventually changing to rich green. Protect from drying winds; Semi Shade; Moist/Well-drained
<i>x Gasteraloe 'Cosmo'</i>	Succulent; 0.3m h; Slow growing plant with rich green, speckled leaves growing in a dense rosette. The flowers are cylindrical, orange-red, and appear on a spike-shaped inflorescence. If indoors, place in a well-lit spot; Semi Shade; Well-drained
<i>x Gasterhaworthia 'Coolill'</i>	Succulent; 0.35m h; Rosette (70mm) of reddish green leaves with small white spots edged with fine teeth; Sun; Well-drained
<i>x Gasterhaworthia 'Hiro'</i>	Succulent; 0.1 - 0.15m h; A compact clump-forming succulent with rosettes of thick, pointed leaves marked by dark green colouring and pale, raised bands or speckles. Water less during Winter; Sun/Semi-shade; Well-drained
<i>X Graptoveria 'David Cumming'</i>	Succulent; Rosettes up to 18cm wide. Variable leaf colour of green, light yellow, to pink. Flowers are white to cream, flushed pink. A prolific grower; Flowers: Spring/Summer; Sun; Well-drained
<i>X Graptoveria 'Fred Ives'</i>	Succulent; 0.3 - 0.6m h x 0.3 - 0.6m w; Rosettes of broad bronze-pink succulent leaves atop short stems. Pale yellow flowers grow on long stems; Flowers: Summer; Sun/Semi-shade; Well-drained
<i>X Pachysedum 'Ganzhou'</i>	Succulent; (Pachyphytum x Sedum) An easy-care, beautiful succulent with rosettes of plump, elongated, rounded leaves that vary in colour from pale pink to apricot to bright pink. Apricot flowers. Do not overwater; Sun/Semi-shade; Well-drained
<i>X Pachyveria clavifolia</i>	Succulent; 0.15m h; (Pachyphytum x Echeveria) Upright plant with elongated grey leaves, spiralling densely around the stem. Offsets readily form dense clumps. Orange/pink bells hang off hooked stems; Flowers: Spring; Sun/Semi-shade; Well-drained
<i>X Sedeveria 'Darley Dale'</i>	Succulent; Rosette form with 30-40 narrow, mid-green leaves. Produces offsets readily; Flowers: Spring/Summer; Sun/Semi-shade; Well-drained; Drought Tolerant
